#### PRUDENTIAL RETIREMENT INCOME LIMITED

#### Returns for the year ended 31 December 2001

#### Schedule 4

### Valuation Report on Prudential Retirement Income Limited as at 31 December 2001

#### 1. Date of investigation

The investigation relates to 31 December 2001.

#### 2. Date of previous investigation

The previous investigation related to 31 December 2000.

#### 3. Conformity with Rule 5.6

The valuation of long term insurance business liabilities shown in this report conforms with Rule 5.6 of the Interim Prudential Sourcebook for Insurers.

#### 4. Description of non-linked contracts

#### (1) (c) Categories of in force non-linked business are as follows:

#### (i) Annuities in payment

These are non-profit annuities, written on either a single life or joint life and last survivor basis, which provide a level series of payments throughout the life of the annuitant(s), or incorporate a provision for payments to increase annually at a guaranteed rate. The annuity may incorporate a minimum guaranteed period of payment. Enhanced annuities are available to policyholders suffering from a range of medical conditions that have an adverse impact on life expectancy.

#### (ii) Deferred annuities

These are non-profit deferred annuities, written on either a single life or joint life and last survivor basis, which are either single premium or fully paid-up contracts. Benefits are expressed as amounts of deferred annuity per annum payable at retirement. The benefit at retirement may be a level series of payments throughout the life of the annuitant(s), or incorporate a provision for payments to increase annually at a guaranteed rate. The annuity may incorporate a minimum guaranteed period of payment starting at retirement. On death before the end of the deferred period, a lump sum or dependant's annuity may be payable.

#### 5. Description of linked contracts

- (1) (a) RPI-linked annuities.
  - (b) These contracts are classified as:
    United Kingdom pension business;
    Business is written directly, and reassurance is accepted;
    Non-profit annuities in payment and in deferment.
  - (c) These are all single premium contracts.
  - (d) These are non-profit annuities, written on either a single life or joint life and last survivor basis, which provide a series of payments throughout the life of the annuitant(s) which are revalued, annually, in line with the Retail Price Index. The annuity may incorporate a minimum guaranteed period of payment. In some cases, the revaluation may have a maximum and/or minimum percentage increase. Enhanced annuities are available to policyholders suffering from a range of medical conditions that have an adverse impact on life expectancy.
  - (e) There are no guaranteed investment returns other than those implicit in the guaranteed annuity benefit.
  - (f) The guaranteed annuity benefit is calculated incorporating an allowance for initial and renewal expenses and commission.
  - (g) Not applicable.
  - (h) Not applicable.
  - (i) See (d) above.
  - (i) None.
  - (k) The contract was open to new business during the year to the valuation date.
  - (l) Not applicable.
- (2) No linked contract contains a with-profits option.
- (3) Not applicable.
- (4) Not applicable.
- (5) Not applicable.
- (6) Not applicable.

#### 6. Valuation principles and methods

(1) The mathematical reserve for annuities in payment is the present value of the annuities.

The mathematical reserve for RPI-linked annuities is, in general, determined without an explicit allowance for future increases in annuity payments, which is consistent with the treatment of the matching assets. The treatment of RPI-linked annuities which are subject to maximum and minimum percentage increases is described in 6(1)(h) below.

The mathematical reserve for non-profit deferred annuities is the present value of the annuity secured to date.

In particular, the following principles have been observed:

- (a) Derivative contracts as at 31 December 2001 comprised:
  - i) A contract to swap future income increasing at a fixed rate each year for income varying in line with changes in LPI (i.e. in line with changes in RPI, subject to a minimum annual increase of 0% and a maximum annual increase of 5%).

The effect of the swap contract described in 6(1)(a) is to produce LPI-linked sterling cashflows. The cashflows involved in these arrangements were included in the aggregate cashflows from the portfolio, to give the aggregate yield on the portfolio. This is in accordance with a waiver under section 148 of the Financial Services and Markets Act 2000 which was previously issued as a section 68 order in September 2001.

- (b) Not applicable.
- (c) The net premium method has not been used.
- (d) There are no contracts where negative values could arise.
- (e) No reserve for future bonuses is required.
- (f) No provision for any prospective liability for tax on unrealised capital gains has been included in the mathematical reserves since the Company transacts pension business only and no capital gains tax liability is expected to arise.
- (g) Not applicable.
- (h) As described in 5(1)(d), some RPI-linked annuities are subject to maximum and minimum percentage increases. RPI-linked annuities subject to a minimum annual increase of 0% and a maximum annual increase of 5% are treated as being identical to normal RPI-linked annuities.

- (i) No additional reserve was held in respect of counterparty risk in connection with derivative contracts. The need for a reserve was assessed based on counterparty exposure limits and arrangements for the use of collateral. At 31 December 2001 there was no potential debt if the sole counterparty had defaulted at that date.
- (2) Not applicable.

#### 7. Interest, mortality bases, resilience, etc.

- (1) See Forms 51 and 54 and the notes to Forms 51 and 54. The '+3' in mortality basis C refers to a rating up by 3 years in age.
- (2) The mortality tables used are published tables.
- (3) All business is written in the UK, and UK-based mortality tables have been used.
- (4) Annuities are generally valued using a percentage of the 92 series (year of birth) tables for annuitants and pensioners. The percentage is selected so that the valuation makes allowance for future mortality improvement at a faster rate than that implicit in the underlying tables. For some annuity contracts a calendar year table was used with a percentage adjustment, to the current level of mortality, equivalent to a suitable allowance for future mortality improvement.
- (5) No allowance is made or reserve is held, in addition to the assumptions in 7 (4) above, in respect of possible changes in the incidence of disease or development in medical science.
- (6) The scenarios tested were:
  - (a) an immediate decrease of 20% in the rates of interest obtainable on fixed interest securities, an immediate decrease of 25% in the real yields on index-linked stocks and a 10% fall in property values.
  - (b) an immediate increase of 3 percentage points in the rates of interest obtainable on fixed interest securities, an immediate increase of 25% in the real yields on index-linked stocks and a 20% fall in property values.

Scenario (a) was the more onerous.

The effect of the swap contracts described in 6(1)(a)i) is to produce LPI-linked sterling cashflows, and the scenarios have been tested against the aggregate yield of the non-linked assets and the associated swap contract.

- (7) The reserve required under Rule 5.17(a) of the Interim Prudential Sourcebook for Insurers is calculated by projecting:
  - (a) the risk adjusted cashflows from the assets held (including the assets backing the additional reserve held under Rule 5.17(a)) and;
  - (b) the future liability payments on the valuation assumptions.

The cashflow projections show that there is expected to be an excess of income over outgo in the earlier years. These excess amounts are assumed to be invested in cash and accumulated to meet the shortfall of asset income in later years. The cash investment rate is assumed to be 4.36%. In later years where outgo exceeds income the cash borrowing rate is assumed to be 6.36%. The additional reserve is set so that all liability cashflows can, on these assumptions, be met as they fall due.

A total reserve of £26,084,000 was held at 31 December 2001.

- (8) (a) Valuation rates of interest are adjusted as shown in Form 57. No other assumptions are changed.
  - (b) Assets are hypothecated to liabilities as shown in Form 57. Yields on assets are adjusted by 0.35% and 0.25% to allow for defaults on fixed interest and RPI-linked assets (other than government securities) respectively.
  - (c) Under the scenario which produces the most onerous requirement:
    - (i) the aggregate amount of the long term liabilities increased by £102,916,000 after allowing for the release of the cashflow mismatching reserve described in 7(7) above.
    - (ii) the aggregate amount of the assets backing these liabilities increased by £112,613,000.

Hence the reserve shown in 7(7) is adequate to cover the provision required in respect of Rule 5.17(a) and 5.17(b).

(9) Liabilities are all in sterling.

#### 8. Valuation of non-linked business

- (a) Not applicable.
- (b) See Forms 51.
- (c) Not applicable.
- (d) Not applicable.

#### 9. Valuation of linked business

- (a) See Form 54 and 6 (1) above.
- (b) The annuity loadings in 10 (1) are calculated without assuming any contribution from the loadings in new business written after the valuation date.

#### 10. Expenses

(1) A real discount rate of 2% p.a. was used to convert prudent per policy renewal expenses into percentage of annuity loadings.

For immediate annuities, the implicit per policy loadings at the end of 2001, before inflation, were approximately £1 p.a. for reassurance accepted business and £44 p.a. for directly written business.

Deferred annuities costs were assumed to be £1 p.a. per life during deferment and then as for immediate annuities in possession.

Investment expenses are allowed for by deducting 0.15% p.a. from the valuation rates of interest. The valuation rates of interest in Forms 51, 54 and 57 (and the asset yields in Forms 48 and 57) are shown before this deduction.

- Based on the annualised annuity amounts in payment and deferment at 31 December 2001, the amount released to meet renewal expenses over 2002 will be £729,000. In addition, £1,565,000 will be released to meet investment expenses.
- (3) New business premium rates incorporate a charge to cover acquisition and setup costs. The annuity loadings in 10 (1) are calculated without assuming any contribution from the loadings in new business written after the valuation date.
- (4) An allowance for expenses arising from the closure to new business, if closure occurred twelve months after the valuation date, has been compared with the margins in expense loadings arising from the in force business. As the costs are covered by the margins, no additional reserve is required.

#### 11. Currency matching

- (1) Not applicable.
- (2) Not applicable.

#### 12. Reinsurance

Not applicable

#### 13. to 16. Not applicable.

#### 17. Changes in long term insurance business

See Form 46.

Group non-profit deferred annuities are not included in Form 46. These consist of 1,695 individual arrangements for non-linked contracts and 1,801 individual arrangements for linked contracts at 31 December 2001.

#### 18. New business

See Form 47.

#### 19. Assets covering long term liabilities

- (1) See Forms 48 and 49.
- (2) Changes in the amounts reported on Form 48 at 31 December 2001 which would result from the exercise of rights or obligations under derivative contracts or contracts having the effect of derivative contracts (assuming that options would be exercised only if it would be prudent to do so) are as follows:

| Form 48 | Column 1 | Column 2 | Column 3 |
|---------|----------|----------|----------|
|         | £000's   | £000's   | %        |
| Line 18 | (270)    | (2)      | 0.10     |

(3) Corresponding changes which would result from the exercise of all rights or obligations under derivative contracts, or contracts having the effect of derivative contracts are as follows:

| Form 48 | Column 1 | Column 2 | Column 3 |
|---------|----------|----------|----------|
|         | £000's   | £000's   | %        |
| Line 18 | . (270)  | (2)      | 0.10     |

(4) The maximum changes to the amounts if the conditions in (2) and (3) above had applied at any time during the year as follows:

| Form 48 | Colum                   | in 1 £000's             |
|---------|-------------------------|-------------------------|
|         | Conditions noted in (2) | Conditions noted in (3) |
| Line 18 | -                       | -                       |

#### 20. Valuation summaries

See Forms 51 and 54.

On Form 54 the figures shown in column 7 are the amounts of annuity per annum in payment; the figures in columns 11 and 12 are the total net liability including allowance for future mortality and expenses.

#### 21. Matching rectangle

- (1) See Form 57.
- (2) Aggregate yields have been adjusted by 0.35% and 0.25% to allow for potential defaults within the fixed interest and RPI-linked asset portfolios respectively.

The default allowance is determined from data supplied by our investment manager, which itself is based upon research carried out by one of the major rating agencies. This analysis, based on actual default experience over a 30 year period, produces mean default rates according to credit quality and term to redemption. Volatility is also analysed and standard deviations of the rates for each credit quality are provided.

In the event of default it may be possible to recover some capital, especially if the loan is secured. The allowance for recovery (or partial recovery) of the loan varies according to the level of security and the following recovery rates are assumed:

| First Mortgage Debenture/Senior Secured | 75% |
|---|-----|
| Senior Unsecured                        | 45% |
| Subordinated Debt                       | 20% |
| Preference Shares                       | 0%  |

To calculate the overall default provision, the corporate bond portfolio is broken down according to credit rating and level of security. The default rate for each group is assumed to be the appropriate mean default rate plus two standard deviations, reduced by the expected recovery. The derived default rates for each group are set out below:

Default rates - basis points per annum:

| Seniority                                   | AAA  | AA   | A    | BBB   | BB<br>and lower |
|---|------|------|------|-------|-----------------|
| First Mortgage Debenture/<br>Senior Secured | 4.5  | 7.0  | 11.5 | 30.0  | 193.0           |
| Senior Unsecured                            | 10.3 | 16.4 | 25.9 | 66.2  | 420.0           |
| Subordinated                                | 14.8 | 23.4 | 37.4 | 96.2  | 613.0           |
| Preference                                  | 18.0 | 29.0 | 46.0 | 121.0 | 765.0           |

Regard is also paid to the yield differential between corporate and government securities, and prevailing economic circumstances. The yields shown in Form 48 column 3 were calculated using the method of the section 148 waiver (previously a section 68 order). The aggregate yields on the portfolio using the method of the section 148 waiver were also used to derive the valuation rates of interest in Form 57 Row 31.

(3) The yield on property is valued in the same way as a fixed interest asset, equating the market value with future rental income and disposal value, in accordance with the section 148 waiver (previously issued as a section 68 order in September 2001). No allowance for increase in rental income or market value is made. Defaults are allowed for at an aggregate level as described in 21(2) above, the default allowance therefore being the same as for the other fixed interest investments.

#### 22. Valuation results

See Form 58.

### 23. Required minimum margin

See Form 60.

### Returns for the year ended 31 December 2001

### Supplementary notes to the returns

- \*0901\* Other orders under Section 68, Insurance Companies Act 1982 and other waivers under Section 148, Financial Services and Markets Act 2000
  - (a) The Treasury made an order under section 68 of the Insurance Companies Act 1982 in September 2001. The effect of the order was to direct the Company to calculate the rate of interest to be used for statutory valuation purposes in calculating the present value of future payments by or to the Company on the aggregate yield basis. The order applies to the assets deemed by the Appointed Actuary to be backing the non-profit index-linked, and non-profit non-linked annuity liabilities. The aggregate yield is defined as that rate of interest which equates the discounted value of the aggregate cash flows on the specified asset portfolio with the total market value of that portfolio. The section 68 order granted in September 2001 continues to have effect under the transitional arrangements set out in the FSA Supervision Manual.
  - (b) The Treasury on the application of the Company issued to the Company in December 2000 an order under section 68 of the Insurance Companies Act 1982. The effect of the Order was to modify the provisions of section 31 of the Insurance Companies Act 1982 so that, for the purposes of that section, the Company could disregard amounts in respect of the reassurance agreement made between the Company and Scottish Amicable Life Plc effective from 30 September 2000 regarding non-profit annuity business, a copy of which was sent to the FSA on 28 November 2000. The section 68 order granted in December 2000 continues to have effect under the transitional arrangements set out in the FSA Supervision Manual. Section 31 of the Insurance Companies Act 1982 referred to above now exists as Rule 3.4 of the Interim Prudential Sourcebook for Insurers.

|        | Additional reserves held in long term fund   | 38,475     | 10,878  |

Notes 1302 to 1306 apply to the other than long term insurance business fund.

- \*1302\* The Company held £4m in hybrid securities.
- \*1304\* Amounts due to or from the Company have been set off to the extent permitted by generally accepted accounting principles.
- \*1305\* The maximum permitted exposure to any one counterparty other than short term deposits with an approved credit institution is set at 5% of the long term insurance business amount. Maximum permitted exposure to any one approved credit institution is set at 20%. There were no breaches of these limits during the year.
- \*1306\* No counterparty exposure at the year end exceeded 5% of the long term insurance business amount. Counterparty limits set were not exceeded during the year.

Notes 1308 to 1312 apply to the long term insurance business fund.

- \*1308\* The Company held £26m in unlisted securities.
- \*1309\* The Company held £98m in hybrid securities.
- \*1310\* Amounts due to or from the Company have been set off to the extent permitted by generally accepted accounting principles.

- \*1311\* The maximum permitted exposure to any one counterparty other than short term deposits with an approved credit institution is set at 5% of the long term insurance business amount. Maximum permitted exposure to any one approved credit institution is set at 20%. There were no breaches of these limits during the year.
- \*1312\* No counterparty exposure at the year end exceeded 5% of the long term insurance business amount. Counterparty limits set were not exceeded during the year.
- \*1401\* The long term fund held a number of interest rate swaps during the year. The swaps involved the exchange of cash flows and not of the underlying principal amount. No provision for adverse change is required, as all derivatives that impose an obligation on the fund are strictly covered.
- \*1402\* (a) There were no charges attributable to the long term insurance business assets.
  - (b) The long term fund does not attract tax, and therefore no provision, potential or otherwise, has been made for any liability to tax which might arise if the company disposed of its assets at the values stated in this return.
  - (c) The company could be named as a party to a class action lawsuit in the USA in relation to an investment it previously held. If named, the company would contest the claim and no provision has been made. There are no other contingent liabilities.
  - (d) There were no guarantees, indemnities or other contractual commitments other than in the ordinary course of insurance business and in respect of related companies.
- \*1501\* The other than long term fund held a number of interest rate swaps during the year. The swaps involved the exchange of cash flows and not of the underlying principal amount. No provision for adverse change is required, as all derivatives that impose an obligation on the fund are strictly covered.

- \*1502\* (a) There were no charges attributable to the other than long term insurance business assets.
  - (b) The total potential liability to taxation on capital gains which might arise if the company disposed of its assets was £100k. Full provision has been made at the year end.
  - (c) The company could be named as a party to a class action lawsuit in the USA in relation to an investment it previously held. If named, the company would contest the claim and no provision has been made. There are no other contingent liabilities.
  - (d) There were no guarantees, indemnities or other contractual commitments other than in the ordinary course of insurance business and in respect of related companies.
- \*1601\* Revenue account items are translated at rates ruling on the transaction date.
- \*1603\* Balances in line 21 relate to management expenses.
- \*4008\* Management services are provided to the Company for day to day administration from The Prudential Assurance Company Ltd, Prudential Financial Services Ltd, M&G Investment Management Ltd, Prudential Property Investment Managers Ltd, PruTech Ltd and Prudential Services Ltd, all being group companies.
- \*4009\* During the year the Company purchased £73 million of fixed interest and index-linked investments from related companies at open market value. They were purchased from Prudential Annuities Ltd, Prudential Holborn Life Ltd, Prudential Pensions Ltd and Scottish Amicable Life Plc.

The Company has a reassurance agreement with a related company, Scottish Amicable Life Plc, in respect of non-participating approved pension annuity contracts. During the year, claims amounting to £26 million were paid under this reassurance agreement. A related premium, calculated on normal commercial terms, was received in a prior year. There was no premium received in this year. The liabilities included in the return, relating to this business, amount to £327 million at the year end.

There were no other material intra-group transactions.

\*4801\* The amounts of accrued interest included in the value of admissible assets is:

|      |   | 2001   |
|------|---|--------|
| Line | Description                             | £'000  |
| 12   | Fixed interest – approved securities    | 2,072  |
| 13   | Fixed interest – other securities       | 10,329 |
| 14   | Variable interest – approved securities | 21     |
| 15   | Variable interest – other securities    | 24     |

These amounts are included in line 84 on form 13.

\*4803\* (a) Changes in the amounts reported on Form 48 at 31 December 2001 which would result from the exercise of rights under derivative contracts or contracts having the effect of derivative contracts (assuming that options would be exercised only if it would be prudent to do so) are as follows:

| Form 48 | Column 1 | Column 2 | Column 3 |  |
|---------|----------|----------|----------|--|
|         | £000's   | £000's   | %        |  |
| Line 18 | (270)    | (2)      | 0.10     |  |

(b) Corresponding changes which would result from the exercise of all rights or obligations under derivative contracts, or contracts having the effect of derivative contracts are as follows:

| Form 48 | Column 1 | Column 2 | Column 3 |
|---------|----------|----------|----------|
|         | £000's   | £000's   | %        |
| Line 18 | (270)    | (2)      | 0.10     |

(c) The maximum changes to the amounts if conditions in (a) and (b) above had applied at any time during the year as follows:

| Form 48    | Column                  | 1                       |
|------------|-------------------------|-------------------------|
|            | £000's                  | 5                       |
| <b>-</b> . | Conditions noted in (a) | Conditions noted in (b) |
| Line 18    | -                       | _                       |

- \*5102\* The tables of mortality and disability assumed in the valuation are indicated in column 3 of Forms 51 and 54 by the following code letters:
  - **A** 70% PMA92 (c=2002) / 70% PFA92 (c=2002)
  - **B** 80% PMA92 (U=2002)+3 / 80% PFA92 (U=2002)+3
  - C [AM / AF92] 3 (in deferment), 80% PMA92 (U=2002)+3 / 80% PFA92 (U=2002)+3 (in possession)
  - **D** 80% PMA92 (U=2002) / 80% PFA92 (U=2002)

Provision for the cost of paying annuities in possession is generally made by increasing the value of the annuity. The percentage addition to the value of the annuity, or the explicit expense provision per annum, is shown by a code letter in column 3, the meaning of the code letters being as follows:

- a Expense loading of 1.50%
- **b** Expense loading of 2.50%
- c Expense loading of 0.10%

### Returns for the year ended 31 December 2001

Directors' Certificate pursuant to Rule 9.34(a) of the Interim Prudential Sourcebook for Insurers

### We certify that:

- 1. (a) in relation to the part of this return comprising Forms 9, 10, 13 to 17 and 40 to 42 (and the supplementary notes thereto) and statements required by rules 9.29 and 9.30 that
  - (i) the return has been prepared in accordance with the Accounts and Statements Rules as modified by the orders referred to in supplementary note 0901 on Page 44 issued under Section 68 of the Insurance Companies Act 1982 which still have effect;
  - (ii) proper accounting records have been maintained and adequate information has been obtained by the Company; and
  - (iii) an appropriate system of control has been established and maintained by the Company over its transactions and records;
  - (b) in respect of the Company's business which is not excluded by Rule 7.6, the assets held throughout the financial year enabled the company to comply with rules 7.1 to 7.5 (matching and localisation); and
  - (c) in relation to the statement required by rule 9.36 that:
    - (i) for the purpose of preparing the statement, proper accounts and records have been maintained; and
    - (ii) the information given has been ascertained in conformity with that rule.

### Certificate required by Rule 9.34(a) (continued)

- 2. the margin of solvency required by rule 2.1 has been maintained throughout the financial year.
- 3. (a) the requirements of rules 3.1 to 3.4 have been fully complied with and in particular that, subject to the provisions of rule 3.2(2) to (4) and rule 3.3, assets attributable to long term insurance business, the income arising therefrom, the proceeds of any realisation of such assets and any other income or proceeds allocated to the long term insurance business funds have not been applied otherwise than for the purpose of the long term insurance business;
  - (b) any amount payable from or receivable by the long term insurance business fund in respect of services rendered by or to any other business carried on by the Company or by a person who, for the purposes of rule 3.4, is connected with it or is a subordinate company of it has been determined and where appropriate apportioned on terms which are believed to be no less than fair to that fund, and any exchange of assets representing such fund for other assets of the Company has been made at fair market value;
  - (c) no guarantees have been given by the Company of the performance by a related company of a contract binding on the related company which would fall to be met by any long term insurance business fund;
  - (d) no internal linked funds are maintained;
  - (e) the return in respect of long term insurance business is not distorted by agreements with any other company carrying on insurance business with which the Company has financial, commercial or administrative links or by any arrangements which could affect the apportionment of expenses and income; and
  - (f) the Company has fully complied with the requirement of rule 3.5.

### Certificate required by Rule 9.34(a) (continued)

| 4. | (a) | the systems of control established and maintained by the Company in        |
|----|-----|--|
|    |     | respect of its business complied at the end of the financial year with the |
|    |     | following published guidance:  |

- (i) Guidance Note P1 Systems of control over the investments (and counterparty exposure) of insurance companies with particular reference to the use of derivatives; and
- (ii) Guidance Notes for the Insurance and Retail Products Financial Sector (issued by the Joint Money Laundering Steering Group);

and it is reasonable to believe that those systems continued to so comply subsequently and will continue to so comply in future;

- (b) the return has been prepared in accordance with the following published guidance:
  - (i) Guidance Note 4.1 Guidance for insurers and auditors on the Valuation of Assets Rules;
  - (ii) Guidance Note 4.2 The use of derivative contracts in insurance funds; and
  - (iii) Guidance Note 9.1 The preparation of returns.

24 April 2002

### Returns for the year ended 31 December 2001

# Appointed Actuary's Certificate pursuant to Rule 9.34(b) of the Interim Prudential Sourcebook for Insurers

### I certify that:

- (a) (i) in my opinion proper records have been kept by the Company adequate for the purpose of the valuation of the liabilities of its long term insurance business;
  - (ii) the mathematical reserves as shown in Form 14 constitute proper provision at 31 December 2001 for the liabilities (other than the liabilities which had fallen due before 31 December 2001) arising under or in connection with contracts for long term insurance business including the increase in those liabilities arising from the distribution of surplus as a result of the investigation as at 31 December 2001 into the financial condition of the long term insurance business;
  - (iii) for the purposes of sub-paragraph (ii) above, the liabilities have been assessed in accordance with the Determination of Liabilities Rules in the context of assets valued in accordance with Valuation of Assets Rules, as shown in Form 13;
  - (iv) the valuation complies with the guidance notes "GN1: The Prudential Supervision in the UK of Long-Term Insurance Business" issued by the Faculty and Institute of Actuaries dated 1 December 2001 and "GN8: Additional Guidance for Appointed Actuaries and Appropriate Actuaries on Valuation of Long-Term Insurance Business" issued by the Faculty and Institute of Actuaries, dated 1 December 2001;
  - (v) in my opinion, premiums for contracts entered into during the financial year and the income earned thereon are sufficient, on reasonable actuarial assumptions, and taking into account the other financial resources of the Company that are available for the purpose, to enable the Company to meet its commitments in respect of these contracts and, in particular, to establish adequate mathematical reserves.
- (b) the amount of the required minimum solvency margin applicable to the Company's long term insurance business immediately following 31 December 2001 (including the amount resulting from any increase in liabilities arising from a distribution of surplus as a result of the investigation into the financial condition of the long term insurance business) is £41,711,000.

G A Gallagher Appointed Actuary 24 April 2002

#### Financial Year ended 31 December 2001

# Report of the auditors to the directors pursuant to Rule 9.35 of the Interim Prudential Sourcebook for Insurers

We have examined the documents prepared by the Company pursuant to part I of chapter 9 to the Interim Prudential Sourcebook for Insurers (the Rules) made by the Financial Services Authority under section 138 of the Financial Services and Markets Act 2000;

- Forms 9, 10, 13 to 17 and 40 to 42 (including the supplementary notes thereto) ("the Forms");
- the statement required by Rule 9.29 on pages 56 to 58 ("the statement"); and
- the certificate signed in accordance with Rule 9.34(a) on pages 50 to 52 ("the certificate").

In the case of the certificate, our examination did not extend to:

- (a) Paragraph 1 in relation to the statements required by Rules 9.30 and 9.36 concerning shareholder controllers and information on the appointed actuary;
- (b) Paragraph 3(d) concerning the investment policy and practice of internal linked funds required by paragraph 4(d) of Appendix 9.6;
- (c) Paragraph 4(a) to Appendix 9.6 in so far as it relates to controls with respect to Money Laundering.

### Respective responsibilities of the Company and its auditors

The Company is responsible for the preparation of an annual return (including the forms, statements and the certificate) under the provisions of the Rules. The requirements of the Rules have been modified, under section 68 of the Insurance Companies Act 1982, by orders issued in December 2000 and September 2001, which continue to have effect under the transitional arrangements set out in the supplementary notes and have been referred to in supplementary note 0901 on page 44. Under rule 9.11 the Forms and statements are required to be prepared in the manner specified by the Rules and to state fairly the information provided on the basis required by the Rules.

It is our responsibility to form an independent opinion as to whether the Forms and statements meet these requirements, and in the case of the certificate whether it was or was not unreasonable for the persons giving the certificate to have made the statements therein, and to report our opinions to you. Our responsibilities, as independent auditors, are established in the United Kingdom, by statute, the Auditing Practices Board, and by our profession's ethical guidance.

### Basis of opinions

We conducted our work in accordance with Practice Note 20: 'The Audit of Insurers in the United Kingdom' issued by the Auditing Practices Board. Our work included examination, on a test basis, of evidence relevant to the amounts and disclosures in the Forms and statements. The evidence included that previously obtained by us relating to the audit of the financial statements of the company for the financial year on which we reported on 16 March 2002. It also included an assessment of the significant estimates and judgements made by the Company in the preparation of the Forms and statements.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Forms and statements are free from material misstatement, whether caused by fraud or other irregularity or error, and comply with Rule 9.11.

In the case of the certificate, the work performed involved a review of the procedures undertaken by the signatories to enable them to make the statements therein, and does not extend to an evaluation of the effectiveness of the company's internal control systems.

In giving our opinion we have, relied on the certificate of the appointed actuary on page 53 with respect to the mathematical reserves and the required minimum margin.

### **Opinions**

In our opinion:

- (a) the Forms and statements fairly state the information provided on the basis required by the Rules as modified by section 68 orders granted on 12 December 2000 and 3 September 2001 and have been properly prepared in accordance with the provisions of those Rules; and
- (b) according to the information and explanations received by us:
  - (i) the certificate has been properly prepared in accordance with the provisions of the Rules; and
  - (ii) it was not unreasonable for the persons giving the certificate to have made the statements therein.

# Statement required by Rule 9.29 of the Interim Prudential Sourcebook for Insurers

### (a) Investment guidelines

As requested by Rule 9.29, the investment guidelines for the use of derivative contracts for both long term and other than long term funds are set out below. These are fully explained in the Company's Investment Management Agreement with its fund managers and are consistent with the investment strategy.

- (i) Derivatives are used for the purpose of efficient portfolio management or to reduce risk, specific examples being to implement tactical asset allocation changes around the strategic benchmark, hedge cash flows, or control the risk profile of an identified strategy.
- (ii) A number of restrictions on the use of derivatives have been agreed with the Company's fund managers and can only be overruled by prior agreement between the two parties:
  - all derivatives that impose obligations on the fund must be strictly covered.
  - all derivative contracts must satisfy the definition of approved under Rule 4.12 of the Interim Prudential Sourcebook for Insurers.
  - the maximum allowable exposure to counterparties should not be exceeded.
  - only certain permitted exchanges and contracts can be used.
- (iii) During the year the company has only used interest rate swaps in the long term business and swaptions in the other than long term business.

### (b) Derivatives where exercise is unlikely (Long Term and Other Than Long-Term funds)

There are no specific guidelines for the use of contracts not reasonably likely to be exercised. However the Investment Management Agreement only allows the use of derivatives for the purpose of efficient portfolio management or to reduce risk and the Company's investment managers work within these constraints.

(c) Quantification of derivatives in (b) above

During 2001 no such contracts were used.

(d) Effect on Form 13 at 31 December 2001 of exercising derivatives where it would be prudent to assume options would be exercised. Decreases are shown in brackets.

### Long term funds

Form 13 line 54/55/81;

(£8,362,000)

(e) Effect on Form 13 at 31 December 2001 of exercising all derivatives. Decreases are shown in brackets.

### Long term funds

Form 13 line 54/55/81;

(£8,362,000)

(f) Effect on Form 13 under the conditions noted in (d) and (e) above at any other time during the year. Decreases are shown in brackets.

### Conditions noted in (d)

### Long term funds

Form 13 line 54/55/81;

(£13,096,000)

### Other than long term funds

Form 13 line 44;

(£2,603,000)

### Conditions noted in (e)

### Long term funds

Form 13 line 54/55/81;

(£13,096,000)

### Other than long term funds

Form 13 line 44;

(£2,603,000)

The above figures are the maximum impact on the individual line items of exercising derivatives at any time during the year. The maximum impacts for each line will not necessarily occur on the same day.

### (g) Maximum exposure

### Long term funds

No loss would have been incurred by the Company on the failure by any one other person to fulfil its obligations under derivative contracts at the end of the year, as the swaps were not in the Company's favour.

There would have been no loss at any other time during the year, as the swaps were at no time in the Company's favour.

### Other than long term funds

No loss would have been incurred by the Company on the failure by any one other person to fulfil its obligations under derivative contracts at the end of the year, as the swaps were not in the Company's favour.

There would have been no loss at any other time during the year, as the swaps were at no time in the Company's favour.

# (h) Derivatives not covered by paragraph (2) of Rule 4.12 or the definition of a permitted derivative contract in the Interim Prudential Sourcebook for Insurers

There were no derivative contracts held during 2001 that did not satisfy the Rule 4.12 requirements.

### (i) Consideration for granting rights under derivative contracts

No rights under derivative contracts have been granted.

### Returns for the year ended 31 December 2001

# Statement in accordance with Rule 9.30 of the Interim Prudential Sourcebook for Insurers

### Additional information on shareholder controllers

We confirm that the following is a list of:

- (a) Persons who, to the knowledge of Prudential Retirement Income Limited ("the Company"), have been, at any time during the year ended 31 December 2001, a shareholder controller of the Company; and
- (b) In the case of each person who was a shareholder controller of the Company at 31 December 2001:
  - (i) the percentage of shares he held at that time in the Company, or in another company of which the Company was a subsidiary undertaking; and
  - (ii) the percentage of the voting power which he was entitled at that time to exercise, or control the exercise of, at any general meeting of the Company, or another company of which it was a subsidiary undertaking;

in each case, either alone or with any associate or associates.

|   | In the case of each person who was a shareholder controller of the Company at 31 December 2001:  |  |

| Persons who, to the knowledge of the Company, have been, at any time during the year ended 31 December 2001, a shareholder controller of the Company. | The percentage of shares he held at that time in the Company, or in another company of which the Company was a subsidiary undertaking, either alone or (shown separately) with any associate or associates | The percentage of the voting power which he was entitled at that time to exercise, or control the exercise of, at any general meeting of the Company, or another company of which it was a subsidiary undertaking, either alone or (shown separately) with any associate or associates |
| Prudential Corporation Holdings Limited, being its immediate holding company  | 100%   | 100%   |
| Prudential plc, being its ultimate holding company  | 100%   | 100%   |

### Returns for the year ended 31 December 2001

Statement of information on the Appointed Actuary pursuant to Rule 9.36 of the Interim Prudential Sourcebook for Insurers

In accordance with Rule 9.36, G A Gallagher, the Appointed Actuary of the Company, was requested to furnish and has provided the following information:

- (a) The Appointed Actuary had an interest in 8,046 and 8,299 shares in the ultimate parent company, Prudential plc, at the beginning and at the end of the year respectively.
- (b) The Appointed Actuary had an interest in shares in Prudential plc held in trust, representing the maximum award that could be made if performance requirements under the Prudential Restricted Share Plan were met, of 4,474 and 6,016 shares at the beginning and at the end of the year respectively. During the year, 1,743 shares were conditionally awarded to him under the 2001 scheme and 201 shares conditionally awarded under the 1998 scheme were not subsequently awarded.
- (c) At the end of the year the Appointed Actuary held options granted under the Prudential Savings-Related Share Option Scheme to subscribe for shares in Prudential plc as follows:

## Number of Shares Exercise Price Exercise Dates

2,775 Between June 2006 and December 2006

During the year, options held previously for 898 and 1,468 shares were cancelled.

- (d) The Appointed Actuary also had an interest in 470 shares in Egg plc, a subsidiary of Prudential plc, throughout the year.
- (e) The Appointed Actuary received aggregate remuneration from the Prudential Group of £110,264.
  - Additionally, the Appointed Actuary is a member of the Prudential Staff Pension Scheme and contributions in respect of the year were paid by the Prudential Group.
- (f) The following general insurance policies issued by the Prudential Group subsisted throughout the year:
- (i) a home insurance policy covering buildings, household contents and personal effects.
