(7)

(a) The creation price is the cash cost of purchasing an identical portfolio of assets to that in the unit fund including all the costs that would be incurred in purchasing such assets, divided by the number of units in existence.

The cancellation price is the cash amount for which the assets of the unit fund can be sold net of all costs that would be incurred in disposing of the assets, divided by the number of units in existence.

Appendix 9.4 (continued)

Specific points for each of the groups of internal linked funds are as follows:

GILP Funds

The "Single Swinging Pricing" approach is used. If the net cashflow on the day is positive, all transactions are at the offer price. If the net cashflow on the day is negative, all transactions are at the cancellation (bid/bid) price. For Fund of Funds, the cash balance in the fund may also be taken into account when deciding upon the pricing basis.

Unit prices are calculated daily and transactions in these funds are carried out at the next available price (i.e. on a forward pricing basis). The valuation point of each fund is 9.00 p.m.

Series 1, 2, 3 & 4 Funds

Series 1, 2, 3 & 4 funds are invested in the GILP Funds or funds managed by external companies such as Blackrock, Baillie Gifford, Newton and Schroders. The funds buy and sell units in the GILP funds at the prevailing daily swinging price.

A smoothed equity approach is taken to unit pricing. This is different to the approach adopted for GILP funds. Units are allocated to policyholders at the offer price and de-allocated at the bid price. When the trend in the number of units in a unit fund is believed to be upward, the bid price is the creation price. If the trend in the number of units is believed to be downward the bid price is the cancellation price. Where the trend is unclear or changing the bid price may be between the creation price and the cancellation price. The offer price is then set equal to the bid price plus the initial charge plus a rounding adjustment, not exceeding 0.1p (there is no initial charge for Series 2, Series 3 and Series 4 funds and so there is only a single price applied to policyholders).

Pru-Link Funds

The Pru-Link Managed Fund is wholly invested in units of the GILP Discretionary Fund. The Pru-Link Cash Fund is wholly invested in units of the GILP Cash Fund. The creation and cancellation prices are determined once a week by reference to the appropriate GILP price. Transactions are carried out at the next available price (i.e. on a forward pricing basis).

Pru-Link Funds buy and sell GILP units at the current GILP price. No further adjustments are made for buying or selling expenses.

Units are allocated to policyholders at the offer price and deallocated at the bid price. The Prulink Cash fund price is based on the GILP Cash fund creation price. The Pru-Link Managed fund price is based on the GILP Discretionary fund price and the bid price is currently based on the GILP cancellation price. The offer price is then set equal to the bid price plus the initial charge plus a rounding adjustment not exceeding 0.1p. (The initial charge was removed on 1 April 2001).

- (b) Unit pricing bases are determined at fund level, so all policies invested in the same fund have the same basis applied.
- (c) Not applicable.
- (8) Not applicable as the Company writes pension business only.

Appendix 9.4 (continued)

- (9) Not applicable as the Company writes pension business only.
- (10) Not applicable.

4. Valuation basis (other than for special reserves)

At 31 December 2011 the total gross mathematical reserves amounted to £11,689m. The lesser of £10m and 1% of the total gross mathematical reserves was therefore equal to £10.0m.

(1) Non-linked and index-linked annuities in payment

The mathematical reserve for annuities in payment is the present value of future annuity payments, plus a provision for expenses.

Unit-linked group pensions

The mathematical reserves for linked business consist of the unit liability together with a non-unit liability. A discounted cashflow method of valuation is used to determine the non-unit liability allowing for the value of future attributable expenses less the value of future management charges. An additional reserve for non-attributable expenses is calculated at a homogenous risk group level as described in section 6(6).

No allowance has been made for increasing fund management charges. However, the Company reserves the right to do so after the appropriate period of notice and to a level consistent with industry practice.

No reserve for tax on unrealised capital gains is required, as only pension business is written.

A reserve is held for the guarantee that the unit price of the Pru-Link Cash Fund will not go down.

The unit liability has been obtained by valuing the units allocated to policyholders at the valuation unit price. This price is based on the bid price of the assets and includes investment income received.

(2) The interest rates used are as follows:

| Product code number | Product description | 31 December 2011 | 31 December 2010 |

Mortality bases used at 31 December 2011 and 31 December 2010

Annuities are generally valued using a percentage of the 00 series tables for annuitants and pensioners. In order to allow for mortality improvement, future improvement factors are applied from 2001. For males, these future improvement factors are in line with Prudential's own calibration of the CMI 2009 mortality model, with a long term improvement rate of 2.25% p.a. For females, future improvement factors are in line with Prudential's own calibration of the CMI 2009 mortality model, with a long term improvement rate of 1.25% p.a. Compared with the core CMI mortality model, Prudential's calibration:

- (a) blends period improvements between ages 60 to 80 to the long term improvement rate over a 15 year period (compared with a 20 year period in the core CMI model), and
- (b) assumes that cohort improvements dissipate over a 30 year period, or by age 90 if earlier (compared with a 40 year period, or by age 100 if earlier, in the core CMI model).
- (5) Not applicable.

- (9) Not applicable.
- (10) There are no other material assumptions.
- (11) No derivatives were held outside of the internal linked funds.

Since the movement in linked assets would be offset by a corresponding change in the linked liability, no allowance is made for derivative contracts that were held inside of the internal linked funds.

Derivatives used in the internal linked funds were entered into only if they would have been reasonably likely to be exercised.

(12) There have been no changes made to the mathematical reserves at the current valuation date as a result of the changes to the INSPRU rules at 31 December 2006.

5. Options and guarantees

6. Expense reserves

| | Total | - | £10,744,807 | £8,650,144 | £525,412 | £19,920,363 |

- (2) Not applicable.
- (3) Maintenance expenses shown at line 14 of Form 43 are £21 million. These expenses include expenses relating to reassured business accepted and hence are more than the total expense loadings expected to arise in 2011 as calculated in 6.(1).
- (4) For new business expected to be written in the twelve months following the valuation date, the income and outgo are projected on a prudent basis over the entire lifetime of the business and discounted to the valuation date. A reserve is held if the present value of the outgo exceeds the present value of income to the extent that the excess exceeds the projected surplus on prudent assumptions from existing business. No reserve is held at 31 December 2011.
- (5) In the first instance, expense reserves are calculated on the assumption that Prudential's UK insurance operations will continue to write new business indefinitely and hence that there will be no loss of economies of scale. In this scenario, the expense loadings for the remaining lifetime of the contracts in force at the valuation date are included in the reserves reported in Form 50.

In order to allow for the possibility that the firm will cease to write new business twelve months after the valuation date, the expense loading is recalculated on the assumption that, over a two year period, unit costs would be reduced by 15% and that thereafter loss of economies of scale would result in overall expenses being cut more slowly than the rate at which policies run off. If this revised calculation results in a higher reserve than described in the paragraph above, then the difference is held as an additional reserve. In addition the costs associated with closing to new business, such as redundancy costs or the costs of terminating management agreements, are estimated. To the extent that these costs exceed the projected surplus, on prudent assumptions, from existing business, a further additional reserve is held. At the valuation date an additional reserve of £969,013 is held for the impact of closing to new business.

Appendix 9.4 (continued)

(6) The additional reserve for non-attributable expenses at a homogenous risk group level is calculated as the present value of all future expenses less charges, subject to a maximum of the non-attributable expenses for policies in that risk group. Any future valuation strain is removed at the homogenous risk group level. The additional reserves for non-attributable expenses at 31 December 2011 were as follows:

| Homogeneous Risk Group | Homogeneous Risk Group Reserve | |
|------------------------|--------------------------------|--|
| | (£000) | |
| GILP | - | |
| PIA | 7 | |
| Prulink SP | - | |
| Prulink RP/PUP | - | |
| TOTAL | 7 | |

7. Mismatching reserves

- (1) and (2) All assets and liabilities are denominated in sterling. There is no currency mismatching.
- (3) There is no reserve for currency mismatching.
- (4) In accordance with INSPRU 3.1.16R, for the purposes of calculating the resilience capital requirement in INSPRU 3.1.10R the most onerous scenario is as follows (prior year in brackets):

| Asset class | Scenario | | |
|--|-------------------|--|--|

| Property: | | | |
| Market values | -20% (-17%) | | |

(5) Not applicable.

(6)

- (a) A Resilience Capital Requirement of £1,380,000 was held.
- (b) There was an increase of £569,288 in the aggregate amount of the long term liabilities.
- (c) The assets allocated to match such liabilities decreased in value by £809,597 from the amount of the assets shown in Form 13.
- (7) There is no reserve held under INSPRU 1.1.34R(2).

Appendix 9.4 (continued)

8. Other special reserves

Not applicable.

9. Reinsurance

- (1) No premiums were paid in 2011 in respect of reinsurance business ceded on a facultative basis to reinsurers not authorised to carry on business in the United Kingdom.
- (2) The reinsurance treaties shown in the table below meet the FSA criteria for being reported in this section and were in force as at 31 December 2011.

| Schroder Pension Management Ltd | Reinsurance of unit-linked pension liabilities of the Company arising in relation to reassurance of certain unit-linked pensions contracts issued by a member of the Prudential Group. The business is covered by a pari passu charge on assets. | 10,835 | Open | 27,670 | Nil |

Appendix 9.4 (continued)

- (g) There were no deposit back arrangements under the above treaties.
- (i) There are no "undischarged obligations of the insurer". Premiums are only payable if the gross business remains in force.
- (1) The above reinsurers are authorised to carry on insurance business in the United Kingdom.
- (m) An asterisk denotes companies connected to the cedant (*).
- (n) Not applicable.
- (o) The net liability includes no allowance for the refund of any reinsurance commission.
- (p) Not applicable.

1319 Maximum Counterparty Limits

The maximum permitted exposure to any one counterparty has been set in accordance with the counterparty limits detailed in INSPRU 2.1.22. Therefore exposures to non-approved counterparties have been restricted to a maximum of 5% of the business amount. No counterparty exposure during the year exceeded these limits.

Form 14

1401 Provision for adverse changes

No derivatives were held outside of the internally linked funds at any time during the year and therefore no provision for adverse changes is required.

1402 Uncertain and Potential Liabilities

- a) In the normal course of business certain reinsurance liabilities were secured by a floating charge, ranking these liabilities equally with amounts due under unsecured direct (non-reassurance) policies, over the long term insurance assets of the Company. The amounts secured by charges of this nature and included in Form 14 Line 11 were £3,550.0m, £62.0m, £30.0m, £7.9m and £6.6m. The whole of the amount at Form 13 line 89 is subject to charge.
- b) There were no potential capital gains tax liabilities at the year end.
- c) There was one contingent loan, not in Form 14, at 31 December 2010 repayable to a related group undertaking. The loan and interest on the loan is repayable out of the surplus emerging on its business and is contingent on surpluses arising, but can be repaid by the Company at any time.

Directors' Certificate required by rule 9.34 of the Accounts and Statements Rules

Financial year ended 31 December 2011

We certify:

- 1. (a) that the return has been properly prepared in accordance with the requirements in IPRU(INS), GENPRU and INSPRU; and:
 - (b) we are satisfied that:
 - (i) throughout the financial year in question, the insurer has complied in all material respects with the requirements of SYSC and PRIN as well as the provisions of IPRU(INS), GENPRU and INSPRU; and
 - (ii) it is reasonable to believe that the insurer has continued so to comply subsequently, and will continue so to comply in future.
- 2. (a) that in our opinion, premiums for contracts entered into during the financial year and the resulting income earned are sufficient, under reasonable actuarial methods and assumptions, and taking into account the other financial resources of the insurer that are available for the purpose, to enable the insurer to meet its obligations in respect of those contracts and, in particular, to establish adequate mathematical reserves;
 - (b) that the sum of the mathematical reserves and the deposits received from reinsurers as shown in Form 14 constitute proper provision at the end of the financial year in question for the long-term insurance liabilities (including all liabilities arising from deposit back arrangements, but excluding other liabilities which had fallen due before the end of the financial year) including any increase in those liabilities arising from a distribution of surplus as a result of an actuarial investigation as at that date into the financial condition of the long-term insurance business;
 - (c) that we have, in preparing the return, taken and paid due regard to advice in preparing the return from every actuary appointed by the insurer to perform the actuarial function in accordance with SUP 4.3.13R.

Independent auditor's report to the Directors pursuant to rule 9.35 of the Interim Prudential Sourcebook for Insurers IPRU(INS)

PRUDENTIAL PENSIONS LIMITED

Global business

Financial year ended 31 December 2011

We have examined the following documents prepared by the insurer pursuant to the Accounts and Statements Rules set out in part I and part IV of chapter 9 to IPRU(INS) the Interim Prudential Sourcebook for Insurers, GENPRU the General Prudential Sourcebook and INSPRU the Insurance Prudential Sourcebook, ("the Rules") made by the Financial Services Authority under section 138 of the Financial Services and Markets Act 2000:

- Forms 2, 3, 13 to 16, 40 to 45, 48, 58 and 60 (including the supplementary notes) on pages 1 to 50 ('the Forms');
- the statement required by IPRU(INS) rule 9.29 on page 54 ('the Statement');
- the valuation report required by rule IPRU(INS) 9.31(a)(i) on pages 34 to 43 ('the valuation report').

We are not required to examine and do not express an opinion on:

- Forms 46, 47, 50 to 55 (including the supplementary notes) on pages 21 to 31 and pages 49 to 50;
- the statement required by IPRU(INS) rule 9.30 on page 55; and
- the certificate required by IPRU(INS) rule 9.34(1) on page 51 ('the certificate').

This report is made solely to the insurer's directors, as a body, in accordance with the requirements of IPRU(INS) rule 9.35. We acknowledge that the directors are required to submit this report to the FSA, to enable the FSA to verify that an auditor's report has been commissioned by the insurer's directors and issued in accordance with the requirements of IPRU(INS) rule 9.35 and to facilitate the discharge by the FSA of its regulatory functions in respect of the insurer, conferred on the FSA by or under the Financial Services and Markets Act 2000. Our work (including our examination) has been undertaken so that we might state to the insurer's directors, as a body those matters we are required to state to them in an auditor's report issued pursuant to IPRU(INS) rule 9.35 and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the insurer and the insurer's directors as a body, for our work (including our examination), for this report, or for the opinions we have formed.

Respective responsibilities of the company and its auditors

The insurer is responsible for the preparation of an annual return (including the Forms, the Statement, the valuation report) under the provisions of the Rules. Under IPRU(INS) rule 9.11 the Forms, the Statement and the valuation report, are required to be prepared in the manner specified by the Rules and to state fairly the information provided on the basis required by the Rules.

The methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report, are required to reflect appropriately the requirements of INSPRU 1.2.

It is our responsibility to form an independent opinion as to whether the Forms, the Statement and the valuation report meet these requirements, and to report our opinions to you. We also report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the Forms, the Statement and the valuation report are not in agreement with the accounting records and returns; or
- we have not received all the information we require for our examination.

Independent auditor's report to the Directors pursuant to rule 9.35 of the Interim Prudential Sourcebook for Insurers IPRU(INS) (continued)

PRUDENTIAL PENSIONS LIMITED

Global business

Basis of opinion

We conducted our work in accordance with Practice Note 20 "The audit of insurers in the United Kingdom (revised)" issued by the Auditing Practices Board. Our work included examination, on a test basis, of evidence relevant to the amounts and disclosures in the Forms, the Statement, the valuation report. The evidence included that previously obtained by us relating to the audit of the financial statements of the insurer for the financial year. It also included an assessment of the significant estimates and judgements made by the company in the preparation of the Forms, the Statement, the valuation report.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Forms, the Statement, the valuation report are free from material misstatement, whether caused by fraud or other irregularity or error, and comply with IPRU(INS) rule 9.11.

In accordance with rule IPRU(INS) 9.35(1A), to the extent that any document, Form, Statement, analysis or report to be examined under IPRU(INS) rule 9.35(1) contains amounts or information abstracted from the actuarial investigation performed pursuant to IPRU(INS) rule 9.4, we have obtained and paid due regard to advice from a suitably qualified actuary who is independent of the insurer.

Opinion

In our opinion:

- i) the Forms, the Statement, the valuation report fairly state the information provided on the basis required by the Rules and have been properly prepared in accordance with the provisions of those Rules; and
- ii) the methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report appropriately reflect the requirements of INSPRU 1.2.

Date 23 March 2012

Returns for the year ended 31 December 2011

Statement in accordance with Rule 9.29 of the Accounts and Statements Rules

a. Investment Guidelines

During 2011, investment guidelines allowed the use of derivative contracts in the GILP (and hence MPP) internal linked funds. The derivatives and use thereof was restricted to that permitted by Appendix 3.2 of the Accounts and Statements Rules. The use of derivatives was not permitted in the non-linked funds.

Derivatives are limited to: exchange traded warrants; exchange traded index or stock futures; forward currency contracts; partly paid shares; and convertible bonds. Derivatives must be listed or with an approved counterparty and must be capable of being readily closed out at a price the basis of which is pre-determined. Exchange traded index and stock futures must be based on underlying assets which are themselves permitted links.
