# VALUATION REPORT ON PRUDENTIAL PENSIONS LIMITED

# Appendix 9.4 Abstract of Valuation Report as at 31 December 2014

## 1. Introduction

- (1) The investigation relates to 31 December 2014.
- (2) The previous investigation related to 31 December 2013.
- (3) No interim valuations have been carried out for the purposes of rule 9.4 since 31 December 2013.

## 2. Product range

There were no significant changes in products during 2014.

# 3. Discretionary charges and benefits

- (1) Not applicable.
- (2) Not applicable.
- (3) Not applicable.
- (4) There have been no changes to service charges on linked policies.
- (5) There have been no changes to benefit charges on linked policies.
- (6) Not applicable.
- (7)
- (a) The creation price is the cash cost of purchasing an identical portfolio of assets to that in the unit fund including all the costs that would be incurred in purchasing such assets, divided by the number of units in existence.

The cancellation price is the cash amount for which the assets of the unit fund can be sold net of all costs that would be incurred in disposing of the assets, divided by the number of units in existence.

Both the creation and cancellation price may be further reduced by the amount of reserves we consider appropriate to meet expenses, taxes and other financial costs imposed by the government for which we may become liable in the future such as Financial Services Compensation Scheme levies.

## **Appendix 9.4 (continued)**

Specific points for each of the groups of internal linked funds are as follows:

#### **GILP** Funds

The "Single Swinging Pricing" approach is used. If the net cashflow on the day is positive, all transactions are at the offer price. If the net cashflow on the day is negative, all transactions are at the bid price. For Fund of Funds, the cash balance in the fund may also be taken into account when deciding upon the pricing basis.

Unit prices are calculated daily and transactions in these funds are carried out at the next available price (i.e. on a forward pricing basis). The valuation point of each fund is 9.00 p.m.

#### Series 1 & 3 Funds

Series 1 & 3 Funds are invested in the GILP Funds or funds managed by external companies such as BlackRock, Baillie Gifford, Newton and Schroders. The funds buy and sell units in the GILP Funds at the prevailing daily swinging price.

A smoothed equity approach is taken to unit pricing for the Series 1 & 3 funds. This is different to the approach adopted for GILP Funds. Units are allocated to policyholders at the offer price and de-allocated at the bid price. When the trend in the number of units in a unit fund is believed to be upward, the bid price is the creation price. If the trend in the number of units is believed to be downward the bid price is the cancellation price. The offer price is then set equal to the bid price plus the initial charge plus a rounding adjustment, not exceeding 0.1p (there is no initial charge for Series 3 Funds and so there is only a single price applied to policyholders).

#### Series 4 Funds

The Series 4 Funds related solely to FDS business which has fully lapsed throughout 2014, with the final funds closing on 2 December 2014. When these funds were open the approach to unit pricing was consistent to that for the Series 1 & 3 funds.

#### Pru-Link Funds

The Pru-Link Managed Fund is wholly invested in units of the GILP Discretionary Fund. The Pru-Link Cash Fund is wholly invested in units of the GILP Cash Fund. The creation and cancellation prices are determined once a week by reference to the appropriate GILP price. Transactions are carried out at the next available price (i.e. on a forward pricing basis).

Pru-Link Funds buy and sell GILP units at the current GILP price. No further adjustments are made for buying or selling expenses.

Units are allocated to policyholders at the offer price and deallocated at the bid price. The Pru-Link Cash Fund price is based on the GILP Cash Fund creation price. The Pru-Link Managed Fund price is based on the GILP Discretionary Fund price and the bid price is currently based on the GILP cancellation price. The offer price is then set equal to the bid price plus the initial charge plus a rounding adjustment not exceeding 0.1p. (The initial charge was removed on 1 April 2001).

# Appendix 9.4 (continued)

- (b) Unit pricing bases are determined at fund level, so all policies invested in the same fund have the same basis applied.
- (c) The price used for collective investment schemes and similar assets is the latest valuation at mid-day. Customer instructions received before mid-day receive that price.
- (8) Not applicable as the Company writes pension business only.
- (9) Not applicable as the Company writes pension business only.
- (10) Not applicable.

# 4. Valuation basis (other than for special reserves)

(1) Non-linked and index-linked annuities in payment

The mathematical reserve for annuities in payment is the present value of future annuity payments, plus a provision for expenses.

#### Unit-linked group pensions

The mathematical reserves for linked business consist of the unit liability together with a non-unit liability. A discounted cashflow method of valuation is used to determine the non-unit liability allowing for the value of future attributable expenses less the value of future management charges with a prudent allowance for lapses for Group Investment Linked Plan business. An additional reserve for non-attributable expenses is calculated at a homogeneous risk group level as described in section 6(6).

No allowance has been made for increasing fund management charges. However, the Company reserves the right to do so after the appropriate period of notice and to a level consistent with industry practice.

No reserve for tax on unrealised capital gains is required, as only pension business is written.

A reserve is held for the guarantee that the unit price of the Pru-Link Cash Fund will not go down.

The unit liability has been obtained by valuing the units allocated to policyholders at the valuation unit price. This price is based on the bid price of the assets and includes investment income received.

# Appendix 9.4 (continued)

Product code number	Product description	31 December 2014	31 December 2013
400	Annuity non-profit (CPA) – individual annuities in payment (reassurance ceded to The Prudential Assurance Company Ltd)	2.52%	3.69%
725	Individual pensions property linked	1.50%	2.25%
735	Group money purchase pensions property linked	1.50%	2.25%
755	Trustee Investment Plan	1.50%	2.25%

(2) The interest rates used are as follows:

# (3) Not applicable.

# (4)

Product code number	Product description	31 December 2014	31 December 2013		
	Annuity non-profit (CPA) – individual annuities in payment (reassurance ceded to The Prudential Assurance Company Ltd)				
400	Mortality table	Modified 99% PCMA00 / 89% PCFA00	Modified 99% PCMA00 / 89% PCFA00		
	Expectation of life age 65	24.9 (M), 27.0 (F)	24.7 (M), 26.9 (F)		
	Expectation of life age 75	15.2 (M), 17.2 (F)	15.0 (M), 17.1 (F)		
725	Individual pensions property linked	AM/AF92 less 3 years	AM/AF92 less 3 years		

# Mortality bases used at 31 December 2014 and 31 December 2013

Annuities are generally valued using a percentage of the 00 series PCxA tables for annuitants and pensioners. In order to allow for mortality improvement, future improvement factors are applied from 2000. For males, these future improvement factors are in line with Prudential's own calibration of the CMI 2012 mortality model (CMI 2012 for 31 December 2013 valuation), with a long term improvement rate of 2.25% p.a. (2.25% p.a. in the 31 December 2013 valuation). For females, future improvement factors are in line with Prudential's own calibration of the CMI 2012 mortality model (CMI 2012 for 31 December 2013 valuation). For females, future improvement factors are in line with Prudential's own calibration of the CMI 2012 mortality model (CMI 2012 for 31 December 2013 valuation), with a long term improvement rate of 1.75% p.a. (1.75% p.a. in the 31 December 2013 valuation), with a long term improvement rate of 1.75% p.a. (1.75% p.a. in the 31 December 2013 valuation). The calibration of the CMI 2012 mortality model includes the removal of the negative cohort feature for years of birth after 1947. Compared with the core CMI mortality model, Prudential's calibration:

# Appendix 9.4 (continued)

- (a) blends period improvements between ages 60 to 80 to the long term improvement rate over a 15 year period (compared with a 20 year period in the core CMI model), and
- (b) assumes that cohort improvements dissipate over a 30 year period, or by age 90 if earlier (compared with a 40 year period, or by age 100 if earlier, in the core CMI model), and
- (c) zeroises the negative cohort improvement feature for years of birth on or after 1948
- (5) Not applicable.
- (6) The renewal expenses per annum used are described in the table below:

Product			
code number	Product description	31 December 2014	31 December 2013
400	Annuity non-profit (CPA) - individual annuities in payment (reassurance ceded to The Prudential Assurance Company Ltd)	£19.77 p.a.	£22.31 p.a.
725	Individual pensions property linked	£35.94 p.a. per policy for premium-paying policies; £32.86 p.a. per policy for other policies	£32.14 p.a. per policy for premium-paying policies; £29.11 p.a. per policy for other policies
735	Group money purchase pensions property linked	GILP: £7,491,023 p.a. including £1,763 p.a. per scheme	GILP: £7,964,807 p.a. including £1,622 p.a. per scheme
755	Trustee investment plan	GILP: £503,768 p.a. including £1,763 p.a. per scheme (having allowed for £90,805 p.a. of additional administration service charges) PIA: £37,289 p.a. including £1,763 p.a. per scheme	GILP: £533,139 p.a. including £1,622 p.a. per scheme (having allowed for £93,241 p.a. of additional administration service charges) PIA: £37,583 p.a. including £1,622 p.a. per scheme

Expense figures for unit-linked policies are attributable expenses only.

# Appendix 9.4 (continued)

Product code number	Product description	31 December 2014	31 December 2013
400	Annuity non-profit (CPA) - individual annuities in payment (reassurance ceded to The Prudential Assurance Company Ltd)	0.064%	0.057%
725	Individual pensions property linked	0.170%	0.150%
735	Group money purchase pensions property linked	GILP: 0.128%	GILP: 0.132%
755	Trustee investment plan	GILP: 0.128% PIA: 0.239%	GILP: 0.132% PIA: 0.199%

The investment management expenses used are described in the table below:

Investment management expenses for annuity business are allowed for by making a deduction from the valuation rate of interest. The valuation rate of interest for annuities in 4(2) above is shown after the deduction for investment management expenses. Investment management expenses for non-annuity business are allowed for explicitly.

(7) The unit growth rates (before management charges) and the inflation rates assumed for future expenses and the future increases in policy charges are as follows:

Product code number	Parameter	31 December 2014 %	31 December 2013 %
725, 735 and 755	Unit fund growth rate	4.00%	5.50%
All products	Expense inflation rate	3.50%	4.00%
725, 735 and 755	Policy charge inflation rate	Nil	Nil

- (8) Not applicable.
- (9) For unit-linked Group Investment Linked Plan business, prudent discontinuance assumptions are used, as follows:

Product		Average surrender rate for the policy years			for the
		1-5	6-10	11-15	16-20
735 and 755 (GILP only)	Surrender	6.5%	6.5%	6.5%	6.5%

- (10) There are no other material assumptions.
- (11) No derivatives were held outside of the internal linked funds.

# Appendix 9.4 (continued)

Since the movement in linked assets would be offset by a corresponding change in the linked liability, no allowance is made for derivative contracts that were held inside of the internal linked funds.

Derivatives used in the internal linked funds were entered into only if they would have been reasonably likely to be exercised.

(12) The mathematical reserves have reduced by £6.5m at 31 December 2014 following a change to make a prudent allowance for lapses in the valuation of the non-unit reserves for the unit-linked Group Investment Linked Plan business. The allowance for lapses is in accordance with the change in INSPRU rules effective from 31 December 2006.

# 5. Options and guarantees

- (1) Not applicable.
- (2) Not applicable.
- (3) Not applicable.
- (4) Not applicable

# 6. Expense reserves

(1)

Homogeneous risk group	Implicit allowances	Explicit allowances (investment)	Explicit allowances (other)	Non – attributable expenses	Total
GILP	-	£10,985,946	£7,994,792	£2,032,906	£21,013,643
PIA	-	£10,077	£37,289	£5,843	£53,209
Prulink SP	-	£1,786	£284	£0	£2,070
Prulink RP	-	£65,330	£51,875	£0	£117,205
Total	-	£11,063,138	£8,084,240	£2,038,749	£21,186,127

(2) Not applicable.

- (3) Maintenance expenses shown at line 14 of Form 43 are £12.6 million. These expenses are net of annual management charge income and hence are less than the total expense loadings arising in 2014 as shown in 6.(1).
- (4) For new business expected to be written in the twelve months following the valuation date, the income and outgo are projected on a prudent basis over the entire lifetime of the business and discounted to the valuation date. A reserve is held if the present value of the outgo exceeds the present value of income to the extent that the excess exceeds the projected surplus on prudent assumptions from existing business. No reserve was held at 31 December 2014.

# Appendix 9.4 (continued)

(5) In the first instance, expense reserves are calculated on the assumption that Prudential's UK insurance operations will continue to write new business indefinitely and hence that there will be no loss of economies of scale. In this scenario, the expense loadings for the remaining lifetime of the contracts in force at the valuation date are included in the reserves reported in Form 50.

In order to allow for the possibility that the firm will cease to transact new business twelve months after the valuation date, all expense provisions are recalculated on the assumption that, over a two year period, unit costs would be reduced by 20%. Thereafter, the unit costs are increased to allow for the loss of economies of scale that would arise as the in-force business runs off. The expenses for all business lines are capped at the point that aggregate expenses are projected to have doubled in real terms after closure. In addition the costs associated with closing to new business, such as redundancy costs or the costs of terminating management agreements, are estimated. To the extent that the sum of the closed fund expense reserves and additional costs exceed the projected surplus, on prudent assumptions, from existing business, a further additional reserve is held. At the valuation date an additional reserve of  $\pounds 372,006$  is held for the impact of closing to new business.

(6) The additional reserve for non-attributable expenses at a homogeneous risk group level is calculated as the present value of all future expenses less charges, subject to a maximum of the non-attributable expenses for policies in that risk group. Any future valuation strain is removed at the homogeneous risk group level. The additional reserves for non-attributable expenses at 31 December 2014 were as follows:

Homogeneous Risk Group	Homogeneous Risk Group Reserve (£000)
GILP	-
PIA	175
Prulink SP	-
Prulink RP/PUP	-
TOTAL	175

## 7. Mismatching reserves

- (1) and (2) All assets and liabilities are denominated in sterling. There is no currency mismatching.
- (3) There is no reserve for currency mismatching.

# Appendix 9.4 (continued)

(4) In accordance with INSPRU 3.1.16R, for the purposes of calculating the resilience capital requirement in INSPRU 3.1.10R the most onerous scenario is as follows (prior year in brackets):

Asset class	Scenario
Equition:	
Equities:	
Market values – UK and overseas (excl. US and	-10% (-10%)
euro zone)	
Market values – US	-10% (-10%)
Market values – euro zone	-10% (-10%)
Property:	
Market values	-20% (-20%)
Fixed interest:	
Yields – UK and overseas	+44 bps (+69 bps)

The assumed fall in unit prices used in the calculation of the Resilience Capital Requirement was 15%, which is a prudent assumption compared with the scenarios specified in INSPRU.

(5) Not applicable.

(6)

- (a) A Resilience Capital Requirement of £4,340,000 was held.
- (b) There was an increase of £3,650,999 in the aggregate amount of the non-unit long term liabilities.
- (c) The assets allocated to match such liabilities decreased in value by £679,674 from the amount of the assets shown in Form 13.
- (7) There is no reserve held under INSPRU 1.1.34R(2).

# 8. Other special reserves

Not applicable.

# 9. Reinsurance

- (1) No premiums were paid in 2014 in respect of reinsurance business ceded on a facultative basis to reinsurers not authorised to carry on business in the United Kingdom.
- (2) The reinsurance treaties shown in the table below meet the PRA criteria for being reported in this section and were in force as at 31 December 2014.

# Appendix 9.4 (continued)

(d) Reinsurer	(e) Nature of cover	(f) Premiums £'000	(h) Open / Closed	(j) Reserves Ceded £'000	(k) Retention
The Prudential Assurance Company Ltd*	Immediate annuities which are wholly reassured on original terms. The reinsurer is a member of the Prudential group of companies and the business is covered by a pari passu charge on assets.	Nil	Closed	71,330	Nil
Blackrock Life Ltd	Reinsurance of unit-linked pension liabilities of the Company arising in relation to reassurance of certain unit-linked pensions contracts issued by a member of the Prudential Group. The business is covered by a pari passu charge on assets.	186,440	Open	1,485,413	Nil
Baillie Gifford Life Ltd	Reinsurance of unit-linked pension liabilities of the Company arising in relation to reassurance of certain unit-linked pensions contracts issued by a member of the Prudential Group. The business is covered by a pari passu charge on assets.	8,295	Open	43,113	Nil
Schroder Pension Management Ltd	Reinsurance of unit-linked pension liabilities of the Company arising in relation to reassurance of certain unit-linked pensions contracts issued by a member of the Prudential Group. The business is covered by a pari passu charge on assets.	4,468	Open	31,627	Nil

- (g) There were no deposit back arrangements under the above treaties.
- (i) There are no "undischarged obligations of the insurer". Premiums are only payable if the gross business remains in force.
- (l) The above reinsurers are authorised to carry on insurance business in the United Kingdom.
- (m) An asterisk denotes companies connected to the cedant (\*).
- (n) In general the treaties may be exposed to the credit risk of the reinsurers, against which a reserve is held, if required.

# Appendix 9.4 (continued)

- (o) The net liability includes no allowance for the refund of any reinsurance commission.
- (p) Not applicable.

# 10. Reversionary (or annual) bonus

- (1) Not applicable.
- (2) Not applicable.
- (3) Not applicable.
- (4) Not applicable.

#### Returns for the year ended 31 December 2014

## Notes to the Returns

## Form 2

\*0201\* Waivers issued disapplying or modifying any of the provisions of the Accounts and Statement Rules in respect of long term insurance business.

There were no waivers issued disapplying or modifying any of the provisions of the Accounts and Statement Rules in respect of long term insurance business.

#### Notes to the Returns (continued)

#### <u>Form 13</u>

Notes 1304 to 1306 apply to other than long term business fund.

\*1304\* Statement on Set Off

Amounts due to or from the Company have been set off to the extent permitted by generally accepted accounting principles.

\*1305\* Maximum Counterparty Limits

The maximum permitted exposure to any one counterparty has been set in accordance with the counterparty limits detailed in INSPRU 2.1.22. Therefore exposures to non-approved counterparties have been restricted to a maximum of 5% of the business amount. No counterparty exposure during the year exceeded these limits.

\*1306\* Counterparty exposures at year end

There were counterparty exposures held at year end that were greater than 5% of the sum of the base capital resources requirements and long term insurance liabilities, excluding property linked liabilities and net of reinsurance ceded. These include cash on deposit with Danske Bank A/S  $\pounds$ 20.0m and Lloyds Bank plc  $\pounds$ 19.0m.

- Notes 1308 to 1319 apply to long term business fund.
- \*1308\* Assets specified in IPRU(INS) Form 13 instruction 5 The Company held no unlisted investments or listed investments that are not readily realisable.
- \*1310\* Statement on Set Off Amounts due to or from the Company have been set off to the extent permitted by generally accepted accounting principles.
- \*1312\* Counterparty exposures at year end

There were counterparty exposures held at year end that were greater than 5% of the sum of the base capital resources requirements and long term insurance liabilities, excluding property linked liabilities and net of reinsurance ceded. These include cash on deposit with Danske Bank A/S £9.5m and a cash balance of £8.9m with HSBC Bank Plc.

\*1319\* Maximum Counterparty Limits

The maximum permitted exposure to any one counterparty has been set in accordance with the counterparty limits detailed in INSPRU 2.1.22. Therefore exposures to non-approved counterparties have been restricted to a maximum of 5% of the business amount. No counterparty exposure during the year exceeded these limits.

## Notes to the Returns (continued)

# <u>Form 14</u>

\*1401\* Provision for adverse changes

No derivatives were held outside of the internally linked funds at any time during the year and therefore no provision for adverse changes is required.

- \*1402\* Uncertain and Potential Liabilities
  - a) In the normal course of business certain reinsurance liabilities were secured by a floating charge, ranking these liabilities equally with amounts due under unsecured direct (non-reassurance) policies, over the long term insurance assets of the Company. The amounts secured by charges of this nature and included in Form 14 Line 11 were £4,307.0m, £264.9m, £183.2m, £27.8m and £7.7m. The whole of the amount at Form 13 line 89 is subject to charge.
  - b) There were no potential capital gains tax liabilities at the year-end.
  - c) There were no contingent liabilities at the year-end.
  - d) There were no guarantees, indemnities or other contractual commitments other than in the ordinary course of insurance business and in respect of related companies.

\*1405\* Other adjustments to liabilities

Additional measures hald in the lange terms from d	£'000
Additional reserves held in the long term fund Effect of additional reserves in deferred tax	(13,891) 2,778
Line 74 on Form 14	(11,113)

#### Notes to the Returns (continued)

# Form 15

\*1501\* Provision for adverse changes

No derivatives were held by the other than long term fund at any time during the year and therefore no provision for adverse changes is required.

- \*1502\* Charges, potential tax liability, contingent liabilities, guarantees and fundamental uncertainties
  - a) There were no charges attributable to the other than long term business assets.
  - b) There was no potential tax liability arising in the other than long term fund at the year end.
  - c) There were no contingent liabilities at the year-end.
  - d) There are no guarantees, indemnities or other contractual commitments, effected other than in the ordinary course of insurance business, in respect of related companies.
  - e) There were no fundamental uncertainties at the year-end.

# Form 16

\*1601\* Foreign Currencies

Foreign currency assets and liabilities are translated at year-end exchange rates. Foreign currency revenue translations are translated at rates ruling at the translation dates, except for accrued revenue items that are translated at year-end exchange rates.

# Form 17

\*1700\* Form 17 has been omitted, as no such contracts were used.

# Form 40

\*4008\* Provision of management services

The Company was provided throughout the year with day to day management services by The Prudential Assurance Company Limited (the immediate holding Company), and M&G Real Estate Limited, Prudential UK Services Limited, Prudential Distribution Limited, Prudential Services Limited, PPM America Inc., Prudential Portfolio Management Group Ltd and M&G Investment Management Limited, all group companies. The Company was further assisted during the year with day to day management services by The Bank of New York Mellon (International) Limited and State Street Bank & Trust Company, third parties.

#### Notes to the Returns (continued)

# Form 40 (continued)

\*4009\* The Company has a reassurance agreement with a related Company, The Prudential Assurance Company Limited, in respect of linked premiums. Included in earned premiums for the year is an amount of £451m received under this reassurance agreement. The reassurance agreement was drawn up under normal commercial terms which reflect the level of business transacted with the Company.

Also included within claims incurred is an amount of  $\pounds$ 944m arising from claims under this reassurance agreement and claims recovery received from related Companies, Prudential Annuities Limited  $\pounds$ 4.6m and The Prudential Assurance Company Limited  $\pounds$ 1.6m.

The Company has a reassurance agreement with a related Company, Prudential Retirement Income Limited, in respect of annuities. No claims have been paid during the year as no business in currently reassured under this reassurance agreement. The reassurance agreement was drawn up under normal commercial terms which reflect the level of business transacted with the Company.

# Form 44

\*4401\* Valuation of Linked Assets

Linked assets are valued at market value. Securities are valued at a bid-market price.

\*4402\* Derivative Contracts

The aggregate value of rights and the aggregate amount of liabilities under derivative contracts was as follows:

	Assets £000's	Liabilities £000's
Futures:		
Gross of variation margin	32	(9,850)
Net of variation margin	0	(1,713)
Forwards:		
Gross of variation margin	8,798	(4,825)
Net of variation margin	8,798	(4,825)
Warrants:		
Gross of variation margin	27	0
Net of variation margin	27	0

# Notes to the Returns (continued)

# Form 45

\*4502\* Other Expenditure

o nuo 2. ponenono	2014 £000's	2013 £000's
Safe custody fees	(831)	(821)
Transaction fees	(225)	(310)
Total	(1,056)	(1,131)

# Form 47

\*4701\* For product code 755 there are 7 schemes.

#### <u>Form 48</u>

\*4804\* other assets

Included in Line 18 (Other assets) are:

	£000's
Assets producing income	18,377
Assets not producing income	524
	18,901

## Form 53

\*5301\* For product code 755 there are 350 schemes.

\*5305\* Non-unit reserves

Certain expenses associated with managing a property portfolio have not been included in the renewal expense margins used in the calculation of the non-unit reserves. These expenses are deducted from the investment return credited to policyholders.

## Directors' Certificate required by rule 9.34 of the Accounts and Statements Rules

#### Financial year ended 31 December 2014

We certify:

- 1. (a) that the return has been properly prepared in accordance with the requirements of IPRU(INS), GENPRU, and INSPRU; and:
  - (b) we are satisfied that:
    - (i) throughout the financial year in question, the insurer has complied in all material respects with the requirements of SYSC as well as the provisions of IPRU(INS), GENPRU and INSPRU;
    - (ii) from the beginning of financial year in question until 18 June 2014, the insurer has complied in all material respects with the requirements of PRIN;
    - (iii) from 19 June 2014 until the end of the financial year in question, the insurer has complied in all material respects with the Fundamental Rules; and
    - (iv) it is reasonable to believe that the insurer has continued so to comply with the requirements of SYSC, the Fundamental Rules and the provisions of IPRU (INS), GENPRU and INSPRU subsequently, and will continue so to comply in future.
- 2. (a) that in our opinion, premiums for contracts entered into during the financial year and the resulting income earned are sufficient, under reasonable actuarial methods and assumptions, and taking into account the other financial resources of the insurer that are available for the purpose, to enable the insurer to meet its obligations in respect of those contracts and, in particular, to establish adequate mathematical reserves;
  - (b) that the sum of the mathematical reserves and the deposits received from reinsurers as shown in Form 14 constitute proper provision at the end of the financial year in question for the long-term insurance liabilities (including all liabilities arising from deposit back arrangements, but excluding other liabilities which had fallen due before the end of the financial year) including any increase in those liabilities arising from a distribution of surplus as a result of an actuarial investigation as at that date into the financial condition of the long-term insurance business;
  - (c) that we have, in preparing the return, taken and paid due regard to advice in preparing the return from every actuary appointed by the insurer to perform the actuarial function in accordance with SUP 4.3.13R.

# Independent auditor's report to the Directors pursuant to rule 9.35 of the Interim Prudential Sourcebook for Insurers IPRU(INS)

## PRUDENTIAL PENSIONS LIMITED

Global business

Financial year ended 31 December 2014

We have examined the following documents prepared by the insurer pursuant to the Accounts and Statements Rules set out in Part I and Part IV of Chapter 9 to IPRU(INS) the Interim Prudential Sourcebook for Insurers, GENPRU the General Prudential Sourcebook and INSPRU the Insurance Prudential Sourcebook, ("the Rules") made by the Prudential Regulation Authority under section 137G of the Financial Services and Markets Act 2000:

- Forms 2, 3, 13 to 16, 40 to 45, 48, 58 and 60 (including the supplementary notes) on pages 1 to 49 ('the Forms');
- the statement required by IPRU(INS) rule 9.29 on page 53 ('the Statement');
- the valuation report required by rule IPRU(INS) 9.31(a)(i) on pages 33 to 43 ('the valuation report').

We are not required to examine and do not express an opinion on:

- Forms 46, 47, 50, 51, 53 and 55 (including the supplementary notes) on pages 20 to 30 and page 49;
- the statement required by IPRU(INS) rule 9.30 on page 54; and
- the certificate required by IPRU(INS) rule 9.34(1) on page 50 ('the certificate').

This report is made solely to the insurer's directors, as a body, in accordance with the requirements of IPRU(INS) rule 9.35. We acknowledge that the directors are required to submit this report to the PRA, to enable the PRA to verify that an auditor's report has been commissioned by the insurer's directors and issued in accordance with the requirements of IPRU(INS) rule 9.35 and to facilitate the discharge by the PRA of its regulatory functions in respect of the insurer, conferred on the PRA by or under the Financial Services and Markets Act 2000. Our work (including our examination) has been undertaken so that we might state to the insurer's directors, as a body those matters we are required to state to them in an auditor's report issued pursuant to IPRU(INS) rule 9.35 and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the insurer and the insurer's directors as a body, for our work (including our examination), for this report, or for the opinions we have formed.

# Respective responsibilities of the company and its auditors

The insurer is responsible for the preparation of an annual return (including the Forms, the Statement and the valuation report) under the provisions of the Rules. Under IPRU(INS) rule 9.11 the Forms, the Statement and the valuation report, are required to be prepared in the manner specified by the Rules and to state fairly the information provided on the basis required by the Rules.

The methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report, are required to reflect appropriately the requirements of INSPRU 1.2.

It is our responsibility to form an independent opinion as to whether the Forms, the Statement and the valuation report meet these requirements, and to report our opinions to you. We also report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the Forms, the Statement and the valuation report are not in agreement with the accounting records and returns; or
- we have not received all the information we require for our examination.

Independent auditor's report to the Directors pursuant to rule 9.35 of the Interim Prudential Sourcebook for Insurers IPRU(INS) (continued)

Global business

#### Basis of opinion

We conducted our work in accordance with Practice Note 20 "The audit of insurers in the United Kingdom (revised)" issued by the Auditing Practices Board. Our work included examination, on a test basis, of evidence relevant to the amounts and disclosures in the Forms, the Statement and the valuation report. The evidence included that previously obtained by us relating to the audit of the financial statements of the insurer for the financial year. It also included an assessment of the significant estimates and judgements made by the company in the preparation of the Forms, the Statement and the valuation report.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Forms, the Statement and the valuation report are free from material misstatement, whether caused by fraud or other irregularity or error, and comply with IPRU(INS) rule 9.11.

In accordance with rule IPRU(INS) 9.35(1A), to the extent that any document, Form, Statement, analysis or report to be examined under IPRU(INS) rule 9.35(1) contains amounts or information abstracted from the actuarial investigation performed pursuant to IPRU(INS) rule 9.4, we have obtained and paid due regard to advice from a suitably qualified actuary who is independent of the insurer.

#### Opinion

In our opinion:

- i) the Forms, the Statement and the valuation report fairly state the information provided on the basis required by the Rules and have been properly prepared in accordance with the provisions of those Rules; and
- ii) the methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report appropriately reflect the requirements of INSPRU 1.2.

Robert Lewis for and on behalf of KPMG LLP, Statutory Auditor Chartered Accountants Registered Auditor 15 Canada Square Canary Wharf London E14 5GL

Date 27 March 2015

# Returns for the year ended 31 December 2014

# Statement in accordance with Rule 9.29 of the Accounts and Statements Rules

## a. Investment Guidelines

During 2014, investment guidelines allowed the use of derivative contracts in the GILP (and hence MPP) internal linked funds. The derivatives and use thereof was restricted to that permitted by Appendix 3.2 of the Accounts and Statements Rules. The use of derivatives was not permitted in the non-linked funds.

Derivatives are limited to: exchange traded warrants; exchange traded index or stock futures; forward currency contracts; interest rate swaps; partly paid shares; and convertible bonds. Derivatives must be listed or with an approved counterparty and must be capable of being readily closed out at a price the basis of which is pre-determined. Exchange traded index and stock futures must be based on underlying assets which are themselves permitted links.

# b. **Derivatives where exercise is unlikely**

Derivatives used in the internal linked funds were entered into only if they would have been reasonably likely to be exercised.

# c. Quantification of derivatives in (b) above

No such contracts were used by the Company.

The largest exposure during the year to out of the money call options/warrants was £264k.

# h. **Provisions for reasonably foreseeable variations arising from derivative contracts, rule INSPRU 3.2.17R**

The only derivatives on Form 13, relate to property linked assets and are included on line 59 of Form 13, which would not change in value.

The Company would not be exposed to any fluctuation in asset values.

# i. Consideration received for granting rights under derivative contracts

The investment guidelines did not allow the writing of options.

# Returns for the year ended 31 December 2014

# **Rule 9.30 Statement on Shareholder Controllers**

The following companies were shareholder controllers of Prudential Pensions Limited for the year: The Prudential Assurance Company Limited holding 100% of its issued share capital and voting power throughout the year; and Prudential plc, being the ultimate holding company, holding 100% of the issued share capital and voting power of The Prudential Assurance Company Limited throughout the year.
