THE PRUDENTIAL ASSURANCE COMPANY LIMITED

NOTICE IS HEREBY GIVEN

that the ANNUAL GENERAL MEETING of this Company will be held at the Registered Office of the Company, No. 142, HOLBORN BARS, LONDON, E.C.1 on THURSDAY, the 10th May, 1962, at 12.15 p.m., for the following purposes :

To receive the Report of the Directors and Statement of Accounts for the year ended 31st December, 1961

2

To re-elect Directors

3 To fix the remuneration of the Auditors

4

To transact any other business proper to be transacted at such Meeting.

In connection with the re-election of Directors special notices have been given to the Company pursuant to the Companies Act, 1948, that separate resolutions will be moved proposing the re-election of the following Directors, who retire by rotation and whose respective ages at the date of the Meeting will be as shewn in brackets after their names:—

Sir Frank William Morgan, M.C. (74) Sir John Donald Balfour Fergusson, G.C.B. (70) Mr. Maurice Petherick (67) Sir James Millard Tucker, Q.C. (69)

142, Holborn Bars, London, E.C.1. 17th April, 1962. By order of the Board of Directors, L. BROWN,

Secretary.

PROXIES

A member entitled to attend and vote at the above mentioned Meeting is entitled to appoint a proxy or proxies to attend and vote instead of him. A proxy need not be a member of the Company.

The attention of those shareholders, who are members of the Company's Field Staff, is drawn to Section 33 (2) of the Industrial Assurance Act 1923 which provides that no collector or superintendent shall be present at any meeting of an Industrial Assurance Company. P00019876

ANNUAL REPORT

Year ended 31st December 1961

The Directors submit their Report and Accounts for 1961.

The Balance sheet total of the Company's Assets is $\pounds 1,187,732,015$ as compared with $\pounds 1,111,942,109$ at 31st December, 1960.

The Income from all sources during 1961 was £230,736,092 as compared with £213,735,781 in 1960.

The Tables which follow summarise the operations of the Life and General branches during 1961.

ANNUAL REPORT (CONTINUED)

BONUS DECLARATIONS

The Directors have declared the following bonuses on participating policies:

ORDINARY BRANCH

Assurance policies of classes issued in the United Kingdom, the Channel Islands and the Isle of Man

A reversionary bonus at the rate of 60s. per £100 sum assured.

A final bonus on policies issued in 1958 or earlier which become claims by death or maturity of endowment between 22nd March, 1962, and 31st December, 1962, inclusive, at the rate of 15s. per £100 sum assured for each 31st December prior to 1959 on which the policy was a participating policy, subject to a maximum addition of £27 per £100 sum assured.

Assurance policies of the undermentioned overseas classes

Reversionary bonuses at the following rates per cent. of the sum assured:

Australia:		•				
First Series	• • •			• • •		2.45
Second Serie	s	•••	•••	•••	•••	1.7 compound.
New Zealand:						
First Series	•••	•••	•••			2.0
Second Serie	s		•••	•••		1.3 compound.
Canada	• •••	•••	•••		•••	1.8 compound.
 South Africa, the	Rhodesia	s and 1	Nyasala	nd:		
 First Series	• • •	•••	•••	•••		2.6
Second Serie	s	•••		•••		2.0 compound.
East Africa		•••	•••		• • •	2.3
Malaya and Singa	apore	• • •	•••		•••	2.2
Cyprus	• •••	•••				2.8
Malta				•••	•••	3.0
Pakistan		•••	•••	•••	•••	1.1

Bonuses for assurance policies of other overseas classes, retirement annuity policies and group pension business have also been declared at the rates set out on page 26 in the Valuation Report of the Chief Actuary.

INDUSTRIAL BRANCH

A reversionary bonus at the rate of 44s. per £100 sum assured.

This bonus is added as on 22nd March, 1962, or on completion of payment of one year's premium, whichever is the later.

A final bonus on policies issued in 1958 or earlier which become claims by death or maturity of endowment between 22nd March, 1962, and 31st December, 1962, inclusive, at th P00019879 rate of 15s. per £100 sum assured for each 31st December prior to 1959 on which th policy was a premium paying policy, subject to a maximum addition of £27 per £100 sum assured.

DIVIDENDS

The Directors have declared the following dividends:

A SHARES

A dividend of 8s. 4d. per share, of which 6s. 10d. is payable on 10th May, 1962, to the shareholders on the Register on 13th April, 1962, and 1s. 6d. is payable on 8th November, 1962, to the shareholders on the Register on 12th October, 1962.

Of the total dividend on the A Shares 5.08d, is derived from the profits of the General branch and 7s. 10.92d, from the profits of the Life branches.

The sum of £286,458 has been placed to the Dividend reserve fund.

B SHA'RES

A dividend of 1s. 10d. per share payable on 10th May, 1962, to the shareholders on the Register on 13th April, 1962.

The dividend on the B Shares is wholly derived from the profits of the General branch.

The dividends on both the A and B Shares are payable free of income tax.

The valuation of the contracts in all branches has been made by Mr. F. M. Redington, M.A., F.I.A., upon the bases stated in his report, which appears in full on pages 24-28.

The Directors deeply regret the death of their colleague Mr. Hubert Samuel Lane on the 26th February, 1962. Mr. Lane who joined the staff in March 1904 was appointed to the Board in September 1948.

The Directors retiring by rotation are:

Sir Frank William Morgan, M.C. Sir John Donald Balfour Fergusson, G.C.B. Mr. Maurice Petherick. Sir James Millard Tucker, Q.C.

who offer themselves for re-election.

Messrs. Deloitte, Plender, Griffiths and Co., the present Auditors of the Company, have signified their willingness to continue in office.

9

Holborn Bars, 6th April, 1962. F. W. MORGAN, *Chairman*.

CERTIFICATES TO THE ACCOUNTS

I certify that in my belief the liabilities in respect of long term business do not exceed the amounts of the respective funds and all other liabilities in respect of long term business as shown in the Balance sheet.

F. M. REDINGTON, Chief Actuary.

We certify that in our belief the value of the assets exceeds the amount of the liabilities computed in accordance with the provisions of sub-section (2) of Section 13 of the Insurance Companies Act, 1958, by the amount required by sub-section (1) of that Section. The liabilities in respect of long term business have been taken at the amounts of the respective funds and all other liabilities in respect of long term business as shown in the Balance sheet.

No part of any fund has been applied directly or indirectly for any purposes other than those of the class of business to which the fund is applicable.

We certify that in our belief the value at 31st December, 1961, of the assets set forth in the Balance sheet is in the aggregate in excess of the amount stated therein. For the purpose of this certificate the values of the quoted Stock Exchange securities have been taken at middle market prices as at that date and the values of other assets have been estimated by the Directors.

The amounts at which the Stock Exchange securities and other assets are stated in the Balance sheet are determined under the Articles of Association of the Company by the Directors; individual groups of assets appear at amounts which are above or below the values referred to in the previous paragraph.

K. A. USHERWOOD, General Manager. F. W. MORGAN, Chairman.

F. M. REDINGTON, Chief Actuary.

L. BROWN, Secretary.

R. S. THORP, Director.

JOHN S. P. MELLOR, Director.

6th April, 1962.

NOTES TO THE ACCOUNTS

1. The company has the following forward commitments and contingent liabilities:

1960 £							1961 £
61,770,000	Capital commitments for settlement a	fter	31st De	ecember	• • •		 74,540,000
2,060,000	Contingent capital commitments				•••	•••	 200,000
2,790,000	Uncalled capital on investments held						 2,690,000 *
340,000	Reserve liability on shares, etc.				•••	•••	 340,000

In addition certain guarantees have been given by the Company in respect of retirement benefits for the Staff and benefits for their relatives and dependents.

2. Part of the assets (investments and cash) of the General branch has been deposited under local laws in places out of the United Kingdom on account of fire, casualty and marine insurance business. Specific deposits of life assurance assets of the Ordinary branch, as set out below, have been made under local laws as security to holders of policies issued. Investments (at or under market value, if quoted), property and cash amount to:

1960 £											1961 £
34,500	Australia	•••				 		•••		•••	35,000
19,000	Burma	•••		••••		 •••	• • •	• • •	•••	•••	17,000
32,811,500	Canada			•••		 	•••	•••	•••	•••	34,518,000

2,621,000	Pakistan			•••	•••	 	•••	•••			2,710,000

NOTES TO THE ACCOUNTS (CONTINUED)

3. The ledger values of holdings in South African Government, Municipal and Public Board securities which were formerly included with Other Commonwealth Government, Municipal and Public Board securities, are now included with Foreign Government, Municipal and Public Board securities and the corresponding figures as at 31st December, 1960, have been adjusted accordingly.

4. A Shares—This capital is liable in respect of contracts in all branches of the Company's business, but is included in the Industrial branch accounts pursuant to Section 3 of The Prudential Assurance Company Act, 1875.

B Shares—In accordance with the special resolution passed by the shareholders on 11th May, 1961, the sum of £800,000, part of the sum standing to the credit of the General branch contingency fund, has been capitalised and applied in paying up the amounts unpaid on the B Shares of 4s. per share.

5. The aggregate amount of the Directors' remuneration for the year was £56,790 (1960, £54,881). In addition sums totalling £5,437 (1960, £3,478) were paid by the Company to Directors and past Directors under arrangements for augmenting pensions payable to ex-employees from the staff pension funds.

6. Overseas taxes of the General branch which do not relate to profits and which have formerly been included with Overseas taxes in the General branch Profit and loss account are now shown in their appropriate Revenue accounts. The corresponding figures for the year ended 31st December, 1960, have been adjusted accordingly.

7. Life and casualty revenue account transactions in overseas currencies have been brought in at the rates of exchange ruling on 31st December, 1961, with the exception of interest received at or paid by the Company's Chief Office which has been brought in at the rates ruling on the dates of the respective transactions; the adjustment in exchange item appearing in certain revenue accounts is the difference between the sterling equivalents at the rates ruling at the beginning and the end of the year of the fund brought forward at the beginning of the year. Fire and marine revenue account transactions in overseas currencies have been brought in at rates of exchange approximating to those current on the dates of the respective transactions.

Currency liabilities overseas are, in the main, covered by currency assets. Both have been converted into sterling at the rates ruling on 31st December, 1961, except that in the case of certain investments in overseas currency held at Chief Office book values have been based on the rates of exchange ruling on the dates of acquisition.

8. The business of the Company in Egypt was sequestrated by the Egyptian Government on the 1st November, 1956, and is understood to have been subsequently sold by the Custodian General to the Al Goumhouria Insurance Company. Pending clarification of the position, which is being investigated, the assets and liabilities of this part of the Company's business as at the date when the last accounts were received have been retained in the Company's Balance sheet. As provided in the agreement signed on the 28th February, 1959, between the Governments of the United Kingdom and the United Arab Republic, a claim has been made for compensation but no credit has been taken in the accounts for any amount which may be received.

9. An investment reserve account is maintained in each branch to which are carried profits and losses on realisation of assets together with adjustments to ledger values and exchange differences, other than exchange differences on fire, marine, aviation and transit insurance business, less any relative taxes thereon. The investment reserve accounts have been applied to reduce the Balance sheet values of the assets in the appropriate branches.

10. With the approval of the Board of Trade (a) the group accounts do not deal with Prudential Nominees Limited or one overseas subsidiary whose business is so different from that of the Company that they cannot reasonably be treated together as a single undertaking and in which subsidiary the shareholding is held merely as an investment, and (b) the particulars of such subsidiaries otherwise required to be given in accordance with paragraphs 15 (4) and (6) of the Eighth Schedule to the Companies Act, 1948, are omitted. The accounts of the Italian agency company, which is a subsidiary of the Company, have not been dealt with in the group accounts as the amounts involved are insignificant; the operations up to 31st December, 1961, have resulted in a loss of £23,309 of which £10,262 relates to 1961; these losses have been reimbursed by the Company.

11. General branch business in the United States of America is transacted by the Company's subsidiary, The Prudential Insurance Company of Great Britain located in New York. The accounts of this subsidiary for the year 1961 have been approved by the Directors and are annexed to these accounts. In the Company's main Balance sheet its investment in this subsidiary appears as an asset of the General branch under the heading "Subsidiary dealt with in accounts annexed—Ordinary shares" and is shown at dollar cost converted to sterling at the rate of \$2.80 to the £. The Company's main accounts do not include the business transacted by the subsidiary except that the dividend received in 1961 is included with General branch interest and dividends.

REPORT OF THE AUDITORS

TO THE MEMBERS OF

THE PRUDENTIAL ASSURANCE COMPANY LIMITED

We have obtained all the information and explanations which we considered necessary for our audit apart from confirmation of assets in Egypt. In our opinion proper books of account have been kept by the Company and proper returns adequate for the purposes of our audit have been received from the branches which have not been visited by us.

We have examined the balance sheet and revenue and profit and loss accounts of the Company which are in agreement with the books and returns and in our opinion give the information required by the Companies Act, 1948, as modified for assurance companies in regard to reserves and provisions and aggregate market value of quoted investments. On this basis, in our opinion, the balance sheet and the profit and loss account, as supplemented by the revenue accounts, give a true and fair view of the state of the Company's affairs at 31st December, 1961, and of the profit, ascertained in the manner indicated in the accounts, for the year ended on that date.

No part of any fund has been applied, directly or indirectly, for any purpose other than the class of business to which the fund is applicable. We have investigated the methods of calculating and apportioning the expenses of management and in our opinion the apportionment of these expenses between the Industrial and other Branches of the Company's business has been made on a fair and equitable basis.

We have also examined the group accounts comprising the accounts of the Company, as audited by us, and the annexed accounts of its subsidiary compiled from audited accounts received from New York. In our opinion the group accounts comply with the Companies Act, 1948, and, on the basis mentioned above, give a true and fair view of the state of affairs at 31st December, 1961, and of the profit for the year ended on that date of the Company and its subsidiary so far as concerns members of the Company.

DELOITTE, PLENDER, GRIFFITHS & CO., Chartered Accountants, 5, London Wall Buildings, London, E.C.2.

6th April, 1962.

23

VALUATION REPORT

To the Directors of The Prudential Assurance Company Limited.

Gentlemen,

I have the honour to submit my report on the valuation as at 31st December, 1961, of the life assurances and annuities and other insurance contracts of the Company.

ORDINARY BRANCH

The number of contracts in force was 1,883,414, producing an annual premium income of £77,618,160. Sums assured with bonuses amounted to £2,096,177,638; deferred and contingent annuities with bonuses amounted to £82,649,579 per annum including amounts of annuity to be purchased by future recurrent single premiums. Annuities in course of payment amounted to £3,415,909 per annum.

The interest earned in 1961 represents a gross rate of £6 11s. 8d. per cent. on the Ordinary branch life assurance fund.

Assurances issued in the United Kingdom and in overseas territories other than Australia and New Zealand have been valued by the A1924/29 Ultimate table with a rating up in age of 3 years for assurances issued at non-European rates of premium. Assurances issued in Australia and New Zealand have been valued by the A1949/52 Ultimate table. The net rates of interest assumed for assurances were:—

Business issue	d in:									Rate of Interest
United K	ingdom, the Channel Island	s and th	e Isle of	f Man	•••	•••		••••	•••	$2\frac{1}{2}\%$
Australia	and New Zealand:									
<i>(a)</i>	Other than Second Series po	olicies		• • •						31%
<i>(b)</i>	Second Series policies	•••		•••	•••	•••		•••	•••	3%
South Af	rica, the Rhodesias and Nya	saland:								
<i>(a)</i>	Other than Second Series po	olicies		•••	•••			•••		$3\frac{1}{2}\%$
<i>(b)</i>	Second Series policies				•••		•••	•••		34%
East Afri	ca		•••		•••					34%
Other ov	erseas territories		•••			•••		•••	•••	3%

For assurances issued in the United Kingdom, the Channel Islands and the Isle of Man, net premiums have been valued, calculated on the valuation bases. For assurances issued in other territories modified net premiums have been valued, calculated on the valuation bases with an addition to allow for part of the initial expenses. The whole of the difference between the value of the future office premiums and the value of the future net or modified net premiums has been reserved for future expenses and profits.

Deferred annuities have been valued for the period of deferment by the A1949/52 Ultimate table of mortality with a rating down of one year in the age. Deferred annuities for the period after deferment and immediate annuities have been valued by the a(55) Ultimate tables of mortality with an addition of 3 per cent. to the value of the annuities as a provision for future expenses of paying annuities and for the increasing longevity of annuitants. The rates of interest assumed were:—

Deferred annuities:—							Cha	ted Kingdom, nnel Islands Isle of Man	Other territories
With profits:									
Individual business:									
During deferment							J	$3\frac{3}{4}\%$	$\begin{cases} 3\% \\ 2\frac{3}{4}\% \end{cases}$
After deferment	•••						5	54/0	$12\frac{3}{4}\%$
Group business					•••	•••	•••	$2\frac{1}{2}\%$	3%
Without profits individual and	d grou	ip:							
Pension annuity business				•••				4%	
General annuity business	:								
During deferment								$3\frac{1}{4}\%$	P00019892
After deferment	•••		•••				•••	4% \$	
Immediate annuities	•••				•••	•••	•••	4%	3 <u>1</u> %
Annuities certain	•••		•••				•••	$3\frac{1}{2}\%$	312%
									1278-020

ORDINARY BRANCH (CONTINUED)

For individual deferred annuities the net premiums valued were calculated on the valuation bases. For group deferred annuities secured by annual premiums the net premiums are 95 per cent. of the office premiums. For group deferred annuities secured by recurrent single premiums the benefit valued is the amount of annuity purchased by premiums paid to date.

In view of the situation relating to the business in Egypt, as described in a note to the Accounts, the liability in respect of that business has been calculated as at 31st October, 1956.

The equivalents in sterling of liabilities in other currencies have been calculated at the rates of exchange ruling on 31st December, 1961.

The foregoing bases of valuation incorporate certain changes. In view of the continuing high level of market rates of interest in certain territories, the rates of interest used in the valuation as at 31st December, 1961, of with profit assurances under the simple reversionary bonus system and of without profit assurances have been increased as shown in the following table. The table also shows the amounts by which the net liabilities at the 1st January, 1961, would have been reduced by using the new valuation bases:—

Business issued in:		interest increased from:	liability at 1st January, 1961
United Kingdom, the Channel Islands and the Isle of Man	•••	$2\frac{1}{4}\%$ to $2\frac{1}{2}\%$	£6,494,000
Australia and New Zealand	•••	3% to $3\frac{1}{4}\%$	£1,499,000
South Africa, the Rhodesias and Nyasaland		$3\frac{1}{4}\%$ to $3\frac{1}{2}\%$	£580,000

In my opinion the sums released by the changes in the valuation bases should be retained as part of the total net liability and be amalgamated with the existing additional reserve of loading $(\pounds 3,400,000)$ and the existing provision for revivals, options and general contingencies $(\pounds 3,500,000)$ to form an additional reserve for these several contingencies and as a stabilising fund to facilitate the declaration of equitable bonuses on the various classes of policies. Thus, at the beginning of the year the total sums available for such an additional reserve would have amounted to $\pounds 15,473,000$.

The result of the valuation is as follows:---

Life assurance fund (subject to transfers out	of surp	olus) or	1 31st I	Decemb	er, 19	61	•••	£580,283,489
Net liability under assurance policies			•••			£373,10	0,660	
Net liability under annuity contracts			•••			167,08	9,623	
Additional reserve at the end of the year		•••	•••	•••		15,60	0,000	
Total net liability	•••		•••	•••	- . <i>.</i> .			555,790,283
Surplus, including £1,101,888 brought forwar	d from	ı last y	ear	•••			···	£24,493,206

I recommend that £21,924,480 be allocated to participating policies. I am of the opinion that, on participating assurances issued in the United Kingdom, part of the surplus would again be more equitably distributed by way of final bonuses varying with the duration of the policies, rather than as a normal reversionary bonus, and that the final bonus should be maintained on the same basis as last year. I therefore recommend that the amount allocated to participating policies be used to provide:—

(A) For assurance policies issued in the United Kingdom, the Channel Islands and the Isle of Man a final bonus on policies issued in 1958 or earlier which become claims by death or maturity between the date of declaration and 31st December, 1962, at the rate of •75 per cent. of the sum assured for each 31st December prior to 1959 on which the policy was a participating policy, subject to a maximum addition of 27 per cent. of the sum assured.

1278-022

INDUSTRIAL BRANCH

The number of policies in force, including 5,876,707 free or paid-up policies, was 28,563,342, producing an annual premium income of £61,967,819. The maximum sums assured with bonuses amounted to £1,304,841,454.

The interest earned in 1961 represents a gross rate of £6 19s. 0d. per cent. on the Industrial assurance fund.

The English Life Table No. 11, Males, has been used for the valuation of all assurances. The net rate of interest assumed in the valuation was $2\frac{1}{2}$ per cent. Net premiums have been valued, calculated on the valuation basis, and every policy has been treated as a liability. The whole of the difference between the value of the future office premiums and the value of the future net premiums has been reserved for future expenses and profits.

As in the case of the Ordinary branch, the basis of valuation has been changed. The rate of interest used in the valuation has been increased from $2\frac{1}{4}$ per cent. to $2\frac{1}{2}$ per cent. The amount by which the net liability at 1st January, 1961, would have been reduced by using the new basis was £10,673,000. In my opinion, the sum released by the change in the valuation basis should be retained as part of the total net liability and be amalgamated with the existing additional reserve of loading (£8,300,000) and the existing provision for revivals, options and general contingencies (£2,000,000) to form an additional reserve for these several contingencies and as a stabilising fund to facilitate the declaration of equitable bonuses. Thus, at the beginning of the year the total sums available for such an additional reserve would have amounted to £20,973,000.

The result of the valuat	ion is as	s follow	's:									
Industrial assurance	e fund	(subjec	t to tr	ansfer	s out o	f surpli	us) on .	31st De	ecemb	er, 1961	•••	£513,315,611
Net liability under Industrial assurance policies										£469,2 0	3,170	
Additional reserve	at the e	end of	the ye	ar		••••			•••	21,200),000	
Total net liability		•••			•••			•••	•••			490,403,170
Surplus, including	£1,904,	409 bro	ought	forwar	d from	last ye	ear	•••				£22,912,441

I recommend that £19,675,829 be allocated to participating policies. As in the case of the Ordinary branch, I am of the opinion that the final bonus should be maintained on the same basis as last year. I therefore recommend that the amount allocated to participating policies be used to provide:—

- (A) A final bonus on policies issued in 1958 or earlier which become claims by death or maturity between the date of declaration and 31st December, 1962, at the rate of •75 per cent. of the sum assured for each 31st December prior to 1959 on which the policy was a premium paying policy, subject to a maximum addition of 27 per cent. of the sum assured.
- (B) A reversionary bonus at the rate of 2.2 per cent. of the sum assured.

GENERAL BRANCH

In respect of fire, sickness, accident, motor vehicle and miscellaneous contracts (excluding permanent sickness and other long term contracts), the provision for unexpired risks is 40 per cent. of the premium income for the year.

The permanent sickness policies have been valued by a gross premium method with an allowance for future expenses, assuming 80 per cent. of the Manchester Unity 1893/97 (A.H.J.) sickness experience and the A1949/52 Ultimate table for mortality with interest at 3 per cent.

In respect of long term fire and miscellaneous contracts, the provision for unexpired risks is 80 per cent. of the unearned premiums.

To many of the policies issued in the life branches there are attached additional benefits payable in the event of accident or disability, the liability for which is borne by the General branch. These insurances carry the right of renewal and, in my opinion, a further provision of $\pounds 600,000$ is required in addition to the 40 per cent. of the premium income for the current year.

VALUATION REPORT (CONTINUED)

GENERAL BRANCH (CONTINUED)

The marine fund of £1,213,067 is, in my opinion, a sufficient provision for the liabilities pending under the accounts.

The sinking fund policies have been valued by a gross premium method with an allowance for future expenses. The rate of interest assumed was 3 per cent. or the rate of interest employed in the calculation of the premiums, if less than 3 per cent. The policies in force provide for the payment of capital sums amounting to $\pounds 3,228,097$ at the end of fixed terms of years, and produce an annual premium income of $\pounds 27,713$.

The equivalents in sterling of provisions in other currencies have been calculated at the rates of exchange ruling on 31st December, 1961.

The result of the valuation is as follows:----

Insurance fund (subject to transfers	£17,508,545							
Provision for fire, sickness and acc	cident, :	motor v	ehicle	and mi	iscellan	eous		
insurances	•••						£9,323,595	
Provision for marine insurance							1,213,067	
Provision for sinking fund insurance 1,992,958								
Additional reserve fund							3,900,000	
								16,429,620
Surplus, including £220,837 brough	£1,078,925							

I recommend that £300,000 be transferred to the General branch contingency fund and £50,000 to the Additional reserve fund.

I am, Gentlemen,

Your obedient Servant,

F. M. REDINGTON,

Chief Actuary. ,

22nd March, 1962.
